ISSUE(S):

Given that most school districts obtained voter approval to retain all excess property tax revenue but were required, without legal authority, to subsequently reduce their total program mill levies, can the General Assembly, having already mandated that those school districts reset their total program mill levies to the levels that would have been in effect for the unauthorized reductions, now require such school districts to: (a) gradually eliminate the temporary property tax credits as provided in House Bill 21-1164; and (b) do so without again obtaining voter approval?
