

Colorado Courts, Probation Departments and State Court Administrator's Office Policy Governing the Inspection of Administrative Records

The following policy specifies the implementation of the Colorado Supreme Court Public Access to Information and Records Rule 2 ([P.A.I.R.R. 2](#)) for the Colorado Courts, Probation Departments and State Court Administrator's Office (SCAO) concerning the public access to administrative records. The policy is intended to ensure the above entities respond to requests for administrative records in a consistent and expeditious manner. This policy is not intended to govern requests made of other Judicial Branch agencies.

Request to the Custodian. Pursuant to P.A.I.R.R. 2, a request to inspect or obtain a copy of an administrative record must be directed to the custodian of the record or designee. If a recipient of a request is not the custodian of the sought record but the recipient knows or believes the custodian is or may be someone else in the Courts, Probation Department or the SCAO, the recipient will inform the requestor and forward the request to the person believed to be the custodian. The time frames for acknowledgment of and response to the request shall begin following receipt of the forwarded request.

Requests that cite the federal Freedom of Information Act or the Colorado Open Records Act, section 24-72-200.1, et seq., C.R.S. will be treated as though they were made pursuant to P.A.I.R.R. 2 and the rule provisions shall apply to the request. All requests for administrative records must at minimum include the following information: date the request was delivered to the record custodian, requested record, and requestor's name, address, telephone number and email address.

Persons requesting access to administrative records of the Courts, Probation Departments or the SCAO may use the form attached to this Policy.
