The Honorable Sarah B. Wallace  
District Court, City and County of Denver  
1437 Bannock Street  
Denver, CO. 80202

Dear Judge Wallace

I am writing to you about the case brought by the Citizens for Responsibility and Ethics in Washington, case No. 2023CV32577. I understand that you and the democratic party want to remove President Trump from the 2024 election ballot using the 14<sup>th</sup> amendment to the Constitution. I feel this is wrong. President Trump has not been convicted of any charge connected with the Democrats assertion of insurrection. For that matter, President Trump has not been convicted of any crime. Shouldn't he be convicted of a crime against the United States before any attempt to use the 14<sup>th</sup> amendment against him?

Secondly, Secretary of State, Jene Griswold, has dictated a deadline of January 5, 2024, I don't feel you or any Court in Colorado should comply with a deadline demanded by anyone outside your court. Your sole purpose should be compliance with the law, not deadlines.

For the record, I am and have been Independent. I have been unaffiliated with any party for more than 43 years.

Sincerely,

William M. Stromberg
