Not Only Was Dominion Prone to Attack from China and Iran – It Was Also Connected to Pro-Obama Entity Known as ACORN

JOE HOFT NOVEMBER 26, 2020

On Thanksgiving eve Attorney Sidney Powell filed a 104 Page BOMBHELL COMPLAINT on massive voter fraud in the Georgia election this year. Then it was discovered that she simultaneously filed a complaint in Michigan as well.

General Flynn Attorney **Abigail Frye** broke the news late Wednesday night—

The Kraken came down to Georgia on this Thanksgiving Eve in the form of a 104 pg BOMBSHELL complaint exposing the massive fraud that overwhelmed the 2020 Georgia Elections. Georgia, you are most certainly on our minds. Link to filing to come, stay tuned!

HERE IS A COPY OF THE GEORGIA FILING.

AND HERE IS A COPY OF THE MICHIGAN FILING.

Then on Thanksgiving Day Sidney Powell retweeted two tweets by Liberty Times and Politics.

The tweets included a [court filing](#) that includes information on Dominion and Edison Research’s connections to the Internet.

We noted that the document identifies Dominion’s Trump-hater Eric Coomer is the inventor of the authentication function within the application.

Case 2:20-cv-13134-LVP-RSW ECF No. 1-15, PageID.643 Filed 11/25/20 Page 13 of 17

Of particular interest is a section of the document showing aspects of the nature of the patents dealing with authentication:

17. Smartmatic creates the backbone (like the cloud). SCYTL is responsible for the security within the election system.

And then on [page 16 of the legal filing](#) the document identifies foreign actors having access to US elections through the Dominion – Edison Research connections.

20. As seen in included document titled:

20. As seen in included document titled

“AA20-304A-

Iranian_Advanced_Persistent_Threat_Actor_Identified_Obtaining_Voter_Registration_Data” that was authored by the Cybersecurity & Infrastructure Security Agency (CISA) with a Product ID of AA20-304A on a specified date of October 30, 2020, CISA and the FBI reports that Iranian APT teams were seen using ACUTENIX, a website scanning software, to find vulnerabilities within Election company websites, confirmed to be used by the Iranian APT teams buy seized cloud storage that I had personally captured and reported to higher authorities. These scanning behaviors showed that foreign agents of aggressor nations had access to US voter lists, and had done so recently.

21. In my professional opinion, this affidavit presents unambiguous evidence that Dominion Voter Systems and Edison Research have been accessible and were certainly compromised by rogue actors, such as Iran and China. By using servers and employees connected with rogue actors and hostile foreign influences combined with numerous easily discoverable leaked credentials, these organizations neglectfully allowed foreign adversaries to access data

16

This was shocking news.

Were any Americans aware that our election systems were so prone to attack and that foreign actors China and Iran had attempted to manipulate the results of our election?

However, as we perused the appendix further, we see that Iran and China are not the only entities with access to the Dominion data and the ability to manipulate the results of our elections. There is a direct connection to

Belgrade, Serbia and there are or were numerous Dominion employees in Serbia.

But on page 8 we see Dominion – Edison has connections to domestic players. One entity is Indivisible which was formerly Obama connected ACORN:

12. A search of the indivisible.org network showed a subdomain which evidences the existence of scorecard software in use as part of the Indivisible (formerly ACORN) political group for Obama:
