Dominion Voting Systems Officer of Strategy and SECURITY Eric Coomer Admitted in 2016 Vendors and Election Officials Have Access to Manipulate the Vote

Eric Coomer

Director Product
Strategy & Security,
Dominion Voting
Systems

Dr. Eric Coomer who is responsible for the strategy and Security of Dominion Voting Systems at Dominion Voting Systems.

But if you search the company's profile Eric Coomer has since been removed from their page of directors.

In 2016 Coomer **told the Illinois States Board of Elections** that it was possible to bypass election systems software.

(Sep. 1, 2016) — On Friday, August 26th, during a meeting at the Illinois State Board of Elections, the Vice President of Engineering for Dominion Voting, Dr. Eric Coomer*, was asked if it was possible to bypass election systems software and go directly to the data tables that manage systems running elections in Illinois. His response was, “Yes, if they have access.”

Here is more from the 2016 article at [the Post and Email](#):

Dr. Coomer’s statement brings to light a very serious issue all voters should understand. Voting systems must be re-certified each time they make changes to the hardware or software. Recertification is an expensive and time consuming process. What Dr. Coomer told the Board is that Dominion Voting does not go back for recertification of software when threats to their code are discovered. Rather, they rely on post-election audits and providing advice to election jurisdictions about security. I have reviewed all of the recertification documents produced by Dominion, and I do not recall any software adjustments for security purposes.

This is the reality of the security of your vote. *Software systems that count and record the vote across Illinois and throughout the USA are not updated to address security problems, and even if they were, the software can be completely bypassed by going to the data tables that drive the systems.*

Here is the video...

Dominion was written about by the Clinton Global Initiative.

The AP mentioned Coomer in their September article.

Entrepreneur **Joe Oltmann** researched the Dominion Voting Systems this week after news broke on the unexplained **computer “glitches” that mysteriously took votes** from President Trump in many states and gave those votes to Joe Biden or erased the votes completely.

Joe Oltmann did a deep dive on Dr. Eric Coomer who is responsible for the strategy and Security of Dominion Voting Systems.

Oltmann posted a Facebook post by Coomer from June.

Dr. Coomer retweeted the “Antifa” manifesto letter to President Trump.

Needless to say Dr. Coomer is NOT a Trump supporter!

This is a FB post from Dr. Eric Coomer. This is the Antifa “manifesto” letter to Trump. This is the man that is responsible for the strategy and Security of Dominion Voting Systems. I will post all of the posts here over the next couple of days. Share and follow pic.twitter.com/E2rK9TznVw

Here is that letter:

Joe Oltmann also posted other anti-Trump Facebook posts by Dr. Coomer including a YouTube video titled “Dead Prez.”

Twitter removed Joe Oltmann's account last night for some reason.

It is very interesting that Twitter would remove the one account that was investigating Coomer, his far left background and his role at Dominion.

Report: Anti-Trump Dominion Voting Systems Security Chief Was Participating in Antifa Calls, Posted Antifa Manifesto Letter to Trump Online

By Jim Hoft

Published November 14, 2020 at 9:21pm

876 Comments

In 2010 Eric Coomer joined Dominion as Vice President of U.S. Engineering. According to his [bio](#), Coomer graduated from the University of California, Berkeley with a Ph.D. in Nuclear Physics.

Eric Coomer was later promoted to Voting Systems Officer of Strategy and Security although Coomer has **since been removed** from the Dominion page of directors.

In a stunning interview conducted by **Michelle Malkin, Joe Oltmann**, FEC (Faith Education Commerce) United founder, reveals how he infiltrated Antifa and how during a conversation with Antifa members, he discovered “Eric from Dominion” was allegedly part of the chat during the week of September 27, 2020.

Oltmann explained that “Eric” was telling the Antifa members they needed to “keep up the pressure.” When one of the caller’s asked, “Who’s Eric?” someone answered, “Eric, he’s the Dominion guy.” Oltmann said that as the conversation continued, someone asked, “What are we gonna do if F*cking Trump wins?” Oltmann paraphrased how Eric (the Dominion guy) responded, **“Don’t worry about the election, Trump’s not gonna win. I made f*cking sure of that!”**

After Oltmann, who runs a data company, finished the call, he started to investigate “Eric from Dominion,” in Denver, CO., and came upon Eric Coomer. Oltmann admitted that it didn’t make sense that Eric Coomer would be the Antifa member on the call and that at the time, he knew nothing about Dominion Voting Systems.

It wasn’t until after he started hearing about Dominion Voting Systems in the news following the election that he remembered the remarks made by “Eric from Dominion” on the Antifa chat.

Oltmann began digging into Eric Coomer, trying to find anything he could about him. Oltmann finally **hit gold when he was able to (legally) access** what he claims is Dominion VP, Eric Coomer’s Facebook page. What he found was stunning. Joe Oltmann said he never saw such hate and vitriol coming from someone who has a Ph.D. in Nuclear Physics. Oltmann explained to

Malkin that Coomer actually re-posted the Antifa manifesto to President Trump on his Facebook page.

Do you think Dominion was in on the steal?

The Gateway Pundit posted a copy of **that Antifa letter to Trump** in a previous report.

Joe Oltmann was removed from Twitter this week. His tweets on Eric Coomer upset big tech.

Oltman admits that by revealing this information about Coomer, he is putting himself in danger.

He may have a Ph.D. in Nuclear Physics, but when it comes to hiding his hatred for President Trump, Trump supporters, law enforcement, or even for Texans, Dominion's Eric Coomer isn't very smart.

In 2017, when Coomer was in Nevada, he mocked President Trump's Election Integrity Commission on Facebook.

Coomer shared a [Washington Post](#) article titled, "The voting commission is a fraud itself. Shut it down." The article, written by the unhinged Trump hater Jennifer Rubin, was an attack on President Trump's May 11, 2017, [Executive Order](#) on the Establishment of Presidential Advisory Commission on Election Integrity.

What about Trump's Election Integrity Commission triggered Coomer? Was it the part about "Vulnerabilities in *voting systems* and practices used for Federal elections that could lead to improper voter registrations and *improper voting*, including fraudulent voter registrations and *fraudulent voting*," that caused Coomer to have a childish meltdown on his Facebook page?

Dominion's Director of Strategy and Security's response to Rubin's article appears to be a bit unhinged: "And in other news...There be some serious fuckery going on right here fueled by our Cheeto-in-chief stocking lie after lie on the flames of [former Kansas Sec. of State Chris] Kobach...You want something serious to worry about? This is it. "

Here's what Coomer had to say to his "friends" on Facebook on July 21, 2016, who are Trump supporters.

From Coomer's Facebook post:

Facebook friend land- open call-

If you are planning to vote for the autocratic, narcissistic, fascists, ass-hat blowhard and his Christian jihadist VP pic, UNFRIEND ME NOW! No, I'm not joking. I'm all for reasoned political discourse and healthy debate- I'm looking at you (3 names of friends). I disagree with you three on many philosophical grounds but respect your opinions. Only and absolute FUCKING IDIOT could ever vote for that wind-bag fuck-tard FASCIST RACIST FUCK! No bullshit, I don't give a damn if you're friend, family, or random acquaintance, pull the lever, mark an oval, touch a screen for that carnival barker-UNFRIEND ME NOW. I have no desire whatsoever to ever interact with you. You are beyond hope, beyond reason. you are controlled by fear, reaction, and bullshit. Get your shit together.

Oh, it that doesn't persuade you, FUCK YOU! Seriously, this fucking ass-clown stands against everything that makes this country awesome! You want in on that? You deserve nothing but contempt.

Near the bottom of his rant, Coomer clarifies: "These opinions are rational and completely my own. They are based in reason and highly credible. Though they are not necessarily the thoughts of my employer, though if not, I should probably find another job. Who wants to work for complete morons?" Comer appears to be trying to cover his tracks, "None of my personal opinions affect my professional conduct or attitudes," adding, "I am non-partisan."

According to Oltmann, Eric Coomer isn't a big fan of the police. During his interview with Malkin, he shared several screenshots of anti-police rhetoric like an image a link to YouTube from the hip-hop song "Dead Prez."

Here's a portion of the lyrics from the "Dead Prez" song in case it's not on your personal playlist:

Is there heaven for us hip-hop heathens
Big Pop and Pac, even Eazy had 'em leanin'
We all children lookin' for a reason
What do you believe in, betrayal, treason?
I'm out for dead presidency
I'm out for dead presidency
I'm out for dead presidency
I'm out for dead fuckin' presidents that represent me

This screenshot, captured by Joe Oltmann, makes one wonder if Eric's not a fan of the United States either.

**A lot of people may be glad to know that Texas rejected using
Dominion Voting Systems in their state after reading this garbage!**

30 states in America, including every critical swing state in the November election, used Dominion Voting Systems.

Denver Business Owner: Dominion's Eric Coomer Is an Unhinged Sociopath – His Internet Profile Is Being Deleted and Erased (AUDIO)

Eric Coomer was later promoted to Voting Systems Officer of Strategy and Security at Dominion. Coomer has **since been removed** from the Dominion page of directors.

In fact, in our interview with Denver native Joe Oltmann, Eric Coomer's presence is being SCRUBBED FROM THE INTERNET!

The Gateway Pundit's Jim Hoft interviewed Denver business owner Joe Oltmann on Sunday. Oltmann, the founder of FEC (Faith Education Commerce) United, revealed how he infiltrated Antifa and how during a conversation with Antifa members, he discovered "Eric from Dominion" was allegedly part of the chat during the week of September 27, 2020.

WAKE UP AMERICA! Bold Billionaire Offers \$1 Million Bounty for Dominion's, Eric Coomer's Comeuppance

By Jim Hoft

Published December 28, 2020 at 12:10pm

Alki David, Billionaire Businessman, Podcaster

Want to make a quick million? All you have to do is tell the truth that could save America.

In a world on the edge of collapse into global technocratic authoritarianism, that's how easy it is to be an instant hero right now. And a millionaire.

Alki David is a billionaire mogul and podcaster. He is also, apparently, not an anti-American globalist. That makes at least one. We must celebrate him and get his message out, despite knowing little else about the man. Perhaps more will follow and he can give us all more details about his bounty. We would love to hear from him.

Please pass this on to Eric Coomer VP of Sales at Dominion – thanks

[**https://t.co/sHQfujelHI**](https://t.co/sHQfujelHI)

*– Alki David (@alkidavid) **December 23, 2020***

The Mogul retweeted a story from **ShockYa.com** (a site that is affiliated with his FilmOn.com media site). Mr. David is upset about the state of America and The West due to governmental Covid overreach and election fraud. He admonishes us all to “WAKE UP AMERICA!” To this end, he is offering a **\$1,000,000** bounty for any “irrefutable evidence that the Dominion Voting Systems and its employee **Eric Coomer** produced fraudulent votes during the 2020 election.” A cool million dollars isn't quite enough to get you a dumpy house in Silicon Valley's Bay Area that a Tech Mogul might have. However, it

just might get you about 2000 Playstation 5s or a few hundred thousand rolls of toilet paper for the government's coming Covid-pocalypse.

But, wait! There's more!

According to the article, the tech and cannabis billionaire also “offered \$1000 to anyone who went to their local hospital in a supposed COVID hotspot and filmed the ER and ICU admittance areas. He showed some of the winning entries on his **Instagram Stories**: Empty parking lots and waiting areas in Germany, the UK and America.”

PR Stunt or not, America appreciates and desperately needs honest, courageous displays of capitalism in defense of American freedom and society, and we hope this one is honest and legitimate.

We know that Dominion is one of the companies accused of massive fraud in numerous lawsuits around the country stemming from the 2020 election. But who is Eric Coomer?

Besides being stunningly attractive and not at all menacing in appearance, **Eric Coomer** is an alleged PhD who allegedly worked for Dominion, possibly doing menial tasks, cleaning glass, and growing a neckbeard—though we cannot confirm anything except the neckbeard.

As an employee of Dominion, he seemed to be fairly integral. In fact, **he seems to have designed several voting machine patents** beginning in 2011, at least some of which **belonged to dominion but now belong to China's HSBC** as of last year.

An affidavit from Trump Lawsuit highlighting Coomer's Dominion Patent, now alleged to belong to China[/caption]

He also can be seen in training videos explaining to users 'adjudication' functions on the vote machine that could allegedly be used to alter votes, singularly or in bulk, if a nefarious user chose to do so. It is also alleged that he or Dominion performed **illegal un-certified updates to possibly 1000s of Georgia election machines just days before the election.**

This much we know.

Coomer and Dominion Voting Systems are **also allegedly threatening hefty lawsuits** against all websites and news agencies who dare to speak out against their alleged massive national (and possibly international) scheme to allegedly rig our alleged elections. That is why we all must be very careful about what we say about Dominion and The Great and Powerful Eric Coomer.

Allegedly.

REPORT: Georgia Secretary of State Brad Raffensperger Neglected to Protect Georgians By Allowing Dominion Voting Machines in Elections – He Didn't Prevent Fraud – He Provided for It

By Joe Hoft

Published January 4, 2021 at 7:30am

132 Comments

Georgia's corrupt Secretary of State Brad Raffensperger is in criminal trouble now after leaking a phone call with the President of the United States. A recent report highlights that his allowing Dominion voting machines to be used in his state (STILL) doesn't prevent fraud but allows for vote manipulation and fraud.

Yesterday it was reported that Georgia's corrupt Secretary of State (SoS) Brad Raffensperger is the party to two lawsuits from the President of the United States after leaking information related to their recent call:

President Trump Files Two Lawsuits Against Dirty Georgia Secretary of State Raffensperger for Leaking Confidential Litigation Call

The travesty in Georgia continues. President Trump held a one-hour long phone call on Saturday with crooked Secretary of State Brad Raffensperger and state election officials on the 2020 election in his state that was fraught with fraud. It's not clear if Ruby Freeman or Ralph Jones, Sr. were on the call. In the one-hour ... [Continue reading](#)

GP The Gateway Pundit

But quite frankly, Raffensperger has done much worse. The Georgia SoS is to ensure secure and accurate elections are to be held in his state and yet he allowed Dominion voting machines to be used in the 2020 Presidential

election opening the door to foreign intervention and blatant discrepancies and fraud.

A **report from yesterday at CD Media** lays out this case about the entire Dominion voting machine systems:

In short, there is no security on the Dominion system at all. Most importantly, you'll see how the election is being stolen from the inside.

The stories about the election tallies being sent overseas to Germany, Rome, the UK, Canada, and other exotic places to be processed are true. Inside Dominion's contract is a use of temporary foreign worker's clause

for the GA general election. ***This is Dominion's contract with the State of Georgia.***

Dominion's contract authorizes foreigners to be involved in the election counting results:

Dominion hired workers in foreign countries to service the 2020 election. Dominion uses 3 or 4 levels of access keys to operate the Democracy Suite system. Just to be able to work from outside the United States, these foreign nationals working with the ballots need have master tech keys. With the tech keys every part of the system is open and every election file is available and changeable.

The following is from ES&S' contract with Michigan. ES&S is a close mirror company to Dominion. Both companies offer remote access for election servicing work.

CD Media shares:

With the Georgia run-off election happening on January 5th, you will get angry with the information you're about to read. Voters in every other state using Dominion/Diebold systems, ES&S, Unisyn, or other electronic voting system during the 2020 election will be angry.

GA SoS Brad Raffensperger posted what is essentially a guide to hack Dominion, ES&S, and Smartmatic voting systems during the summer of 2019, one year ahead of the 2020 elections. This made every aspect of the Dominion Voting Systems Democracy Suite open for business to anyone in the business of skewing elections. Raffensperger gave them a year to prepare with the actual components Dominion uses and perfect the methodologies used to hack the GA election.

This link is to the redacted GA Master Technical Evaluation. Although redacted, the report left every route needed to hack and control each technical component Dominion uses as well as adding an actual vulnerability to get hackers started.

We reported a month ago on the control weaknesses within Dominion's voting machines which are ripe for fraud:

HUGE: One of Many IT Heroes Uncovers Damning Evidence Regarding Potential for Fraud Within Dominion Voting Machines

We've also reported on the only audit since the 2020 election of the Dominion voting machine. This audit in Michigan proved the Dominion voting machines and software didn't prevent fraud, they provided for it:

Fully Exposed-The Dominion Plot to Defraud the American Voters and President Trump

The Dominion voting machines should never have been put in place in Georgia or any other state with such blatant control weaknesses and mechanisms for vote manipulation. They were ripe for fraud, and it now appears that may be the only reason they were used in the first place.
