TRANSCRIPTION OF
CONSERVATIVE DAILY PODCAST
NOVEMBER 9, 2020

Transcribed by: Laurie Francisco

JOB No.: 4489698

1 R E C O R D I N G

2 (Musical introduction.)

3 PRERECORDED VOICE: Coming to you from the
4 mountains and the plains, the only conservative voices
5 brave enough to push back. This is the Conservative
6 Daily Podcast with Joe Otto.

7 (Prerecorded.)

8 MR. OTTO: That's what the Second Amendment
9 was designed to do. If you're going to do something
10 to -- to nullify or take away my rights under the
11 Constitution, come get it.

12 PRERECORDED VOICE: Max McGuire.

13 (Prerecorded.)

14 MR. MCGUIRE: When you look at politicians on
15 the left, they need to convince people that they are
16 victims.

17 PRERECORDED VOICE: A resistance to the
18 resistance. And now your hosts, Joe Otto and Max
19 McGuire.

20 (Podcast.)

21 MR. MCGUIRE: And welcome back to another
22 addition of the Conservative Daily Podcast. My name
23 is Max McGuire.

24 MR. OTTO: And this is Joe Otto.

25 MR. MCGUIRE: And today we're going to do a

1 deep dive, a deep dive so deep it might take -- it
2 might take us into a second hour, doing a deep dive on
3 Dominion Voting Systems on all the different stuff
4 we're -- we're seeing with Scorecard, with Hammer, big
5 tech as a whole.

6 MR. OTTO: No, no, no. Let's not --

7 MR. McGUIRE: It's (inaudible) --

8 MR. OTTO: -- let's not -- let's not -- let's
9 not sugarcoat this. We're going to expose someone
10 inside of Dominion Voting Systems specifically related
11 to ANTIFA and related to someone that is so far left
12 and is controlling elections, and his fingerprints are
13 in every state, Max. His fingerprints are in every --

14 MR. McGUIRE: Yes.

15 MR. OTTO: -- state, Max. His fingerprints
16 are in every state. So -- so, I want you guys to
17 understand that what we're about to do -- what we're
18 about to show you, you have to share. I spent an
19 enormous amount of time this weekend doing an enormous
20 amount of research. It's going to be a little bit --
21 I sent stuff over to Max. We go back and forth.

22 But, Max, this is -- I'll -- I'll let you
23 start, and then I'm just going to get into --

24 MR. McGUIRE: Yeah.

25 MR. OTTO: -- it and -- and -- and dive into

1 the --

2 MR. McGUIRE: Well, the biggest bombshell
3 episode we've had yet. And our producer, Josh, is
4 sick. So, we have Evan behind the controls. So, it
5 might be a little bit slower, but give Evan a break.
6 We're going to try. We have more cuts than probably
7 we've ever had before. More images than ever before.
8 So, this is going to be a little bit of trial by fire
9 for Evan today. So, everyone give --

10 MR. OTTO: He's --

11 MR. McGUIRE: -- Evan --

12 MR. OTTO: -- he's up for it.

13 MR. McGUIRE: -- some good words of
14 encouragement --

15 MR. OTTO: He's up for it.

16 MR. McGUIRE: -- in the Comments section.
17 It's going to be a lot today. Make sure you hit that
18 share button, make sure you Like the video, make sure
19 you comment on YouTube, make sure you give us a
20 thumb's up, hit the subscribe button, hit the bell for
21 notifications.

22 But, before we get into Joe's bombshell,
23 actually uncovering a man who works at Dominion, the
24 head --

25 MR. OTTO: Don't say his name --

1 MR. McGUIRE: -- the head --

2 MR. OTTO: -- yet.

3 MR. McGUIRE: -- of their --

4 MR. OTTO: Don't say his name.

5 MR. McGUIRE: Yeah, I know. -- the head of
6 their security and how -- how closely connected he is
7 with ANTIFA. We have to explain what Dominion is
8 first.

9 Mr. Producer, go ahead and put up image
10 alpha, image A.

11 Dominion is a company. Dominion -- they have
12 this Democracy Suite, that's what they call it, and,
13 basically, it's electronic voting. And those are all
14 the states that they are in for electronic voting.
15 You see the ones that jump off -- out immediately at -
16 - at you are Nevada, Arizona, Minnesota, Wisconsin,
17 Michigan -- right? -- Pennsylvania, Georgia, Florida.
18 They're in most of those swing states. So, Dominion
19 runs one of a number of competing electronic voting
20 solutions for states.

21 Let's go ahead and switch this to image B,
22 bravo.

23 MR. OTTO: Okay.

24 MR. McGUIRE: Just -- just so we know, it's
25 not just Dominion. Dominion is -- is a -- this is a

1 little bit of an older map. But, just so you can see,
2 Dominion also shares different -- if you look at it by
3 county, this is older, this is probably this year, but
4 you see that there's other companies: GEMS, Hart,
5 ES&S that help run electronic voting in different
6 areas of the country. So, this company has tremendous
7 power, tremendous power, not just to determine how
8 votes are tabulated, but also to determine how people
9 vote.

10 So, there's two different parts to this.
11 There's two different steps to this process.
12 Actually, there's three. You have -- you vote on
13 election day, you then -- your vote then gets
14 tabulated, and then that tabulation is reported to the
15 officials, who add it to the official count. So,
16 anywhere in there, there is tremendous opportunity for
17 fraud and -- and glitches. They call them "glitches,"
18 but, basically, malicious actors.

19 So, Joe, talk a little bit about -- I want
20 to, before we get into it, also show the barcodes and
21 how that works. But, go ahead.

22 MR. OTTO: So -- so, listen, I -- I just want
23 to be really clear that right now we 100 percent know
24 that the election was rigged. We -- I don't 5 percent
25 know. And I want Facebook to understand this. The

1 Walk Away movement, hashtag Walk Away for 100 million
2 conservatives is a real thing, right? We 100 percent
3 know, 100 percent know that this election was rigged,
4 and that the American's voice will -- will never be
5 heard through this election. Never be heard.

6 Now, what we've done is we've actually found
7 a -- a smoking gun, right? So, they say that there's
8 no proof. I'm going to tell you right now, I 100
9 percent -- this information that I'm going to tell you
10 is 100 percent validated, and it's serendipitous that
11 -- I actually was doing other work to uncover things
12 in Colorado -- it's serendipitous that one of their
13 offices is in Colorado.

14 The things that I found out, people, I'm
15 telling you right now, you're going to want to hit the
16 share button. More importantly, you're going to want
17 to make sure that every news source out there gets
18 infiltrated with this information. So, I've already
19 sent the stuff out for Project Veritas; I've sent it
20 out to DC Draino's; I've sent it to Joe Rogan; I've
21 sent it to everyone. I have an attorney here in
22 Colorado that has been advising me with other
23 attorneys to tell me to be very careful to make sure
24 that what I have is substance, like I can prove it.

25 MR. McGUIRE: Yeah.

1 MR. OTTO: So, everything we're going to go
2 through today is all proof. It's all proof. It's all
3 --

4 MR. McGUIRE: Yeah.

5 MR. OTTO: -- this is 100 -- now, how I got
6 some of this information, I can't tell you that. I
7 can't tell you how I got that information. But I'm
8 going to tell you, as you see this, it's going to be -
9 - it's going to build a picture that they cannot deny.
10 There's no way they can deny it. There's no way that
11 they can -- they can certify these elections in these
12 states with the information that I am about to provide
13 to you right now. So, go ahead and share it.

14 I'm not looking at comments today, guys. I'm
15 going to be talking directly to you, and I'm going to
16 be just sharing a bunch of different stuff that came
17 in, that's intel, that 100 percent is going to do
18 exactly what I told you it's going to do, and that is
19 prove that Dominion Voting Systems is a fraudulent
20 company that is out to destroy our Republic. Now, I
21 didn't say democracy because it's not a democracy, but
22 the --

23 MR. McGUIRE: Yeah.

24 MR. OTTO: -- American's voice is not heard.

25 MR. McGUIRE: So, let's real quick -- before

1 we get into that, we have to paint the picture for how
2 easy it would be to -- to change election results.
3 There's lots of talk about Hammer, Scorecard, the idea
4 of deliberately --

5 MR. OTTO: Yeah.

6 MR. McGUIRE: -- shifting 3 percent of that
7 vote one way or another. But, when you have a company
8 that controls the way that votes are -- are actually
9 cast, tab -- and tabulated, there's tremendous room
10 for either glitches or malicious actors. So, I -- I
11 want to show you how easy it is because, as we
12 mentioned in the beginning, the way the process works
13 is -- I don't know what company I used here in Texas.
14 I don't think it was Dominion. But you go in, you
15 vote, it then prints out a -- a ballot for you, and it
16 shows you -- let's go ahead --

17 MR. OTTO: And (inaudible) --

18 MR. McGUIRE: -- and put up image -- let's go
19 ahead and put up image F, foxtrot. This is an example
20 of an old Dominion ballot from Colorado, how it would
21 look in Colorado. So, you can see that this is from
22 Colorado, 2017. The -- the reason someone did this,
23 because Georgia was switching to this system.

24 So, the way it typically works with most of
25 these electronic companies is you vote on a

1 touchscreen. It then prints out your ballot. You
2 then look, and you're supposed to check whether you
3 want to vote for that person. You can see on the
4 screen it says, Director at Large -- these are made-up
5 names, right? -- District 4, Question 2A, 2B, right?
6 You're -- you're going through all of that to see
7 whether or not that is how you voted.

8 Let's go ahead and put up image G, image
9 golf. This is another company. I think this is the
10 one that we used in Texas. So, they -- they print out
11 this little receipt. You say, Okay, yeah, I voted for
12 president, District 1, Governor, Board of (inaudible),
13 yada, yada, yada. The problem is in the barcode.
14 That barcode is what gets tabulated. The -- the
15 machines that tabulate the votes do not actually
16 tabulate the names, they tabulate the barcode. So,
17 you see that barcode. All that barcode is is -- is
18 basically separating these lines a certain distance
19 apart to relay information to a scanner.

20 So, go back to image foxtrot, image F. You
21 see that, in -- in this, they're actually using QR
22 codes, which is even harder to understand. It's --
23 it's taking all the data in a QR code, so it's
24 impossible for the human eye to actually verify that
25 the QR code and the barcode say what they want them to

1 say. So, all you would need to do to actually change
2 results would be to place a different barcode on it.

3 MR. OTTO: No --

4 MR. McGUIRE: Even --

5 MR. OTTO: -- no --

6 MR. McGUIRE: -- either maliciously --

7 MR. OTTO: Yeah.

8 MR. McGUIRE: -- or a glitch. It's very easy
9 to do because no human being can look at that barcode
10 and say, Oh, that's off. I didn't mean to vote that
11 way. So, it -- it's really scary the way this can all
12 be manipulated, and it's very easy to do. You look at
13 that -- put up image F one more time, image foxtrot.
14 You look at that QR code, you look at all of those
15 little dots, those black dots, you move a couple of
16 those dots in a different location and it relays a
17 different set of information to a computer that's
18 tabulating the vote.

19 So, it's very, very easy, it's very, very
20 easy to manipulate this. The question is, the people
21 in the position of power, the people who are supposed
22 to be protecting the integrity of that system, do they
23 have an interest, do they have a political interest in
24 making sure that -- that these votes are not tallied
25 the right way? And do they have the ability to do so,

1 which is what we're going to get into next. So, make
2 sure you hit that share button; make sure you give us
3 a thumb's up on YouTube; make sure you subscribe; hit
4 the bell for notifications; like the video; and
5 comment as well. We're going to dive into this right
6 now.

7 MR. OTTO: All right. So, I'm going to --
8 I'm going to back up for a minute and I'm going to
9 give you some context, all right? So -- and you have
10 to bear with me. Everybody's like, Hey, just put up
11 the -- put up the post. I'm -- I'm going to -- I'm
12 going to give you some context of how I put it all
13 together. And, frankly, it wasn't -- it wasn't that I
14 started out going -- I -- I knew something was wrong.
15 I knew it was fishy. I know you have the Benford law,
16 which basically is showing fraud. You have the 90-
17 year-olds -- which, Max, you put it on there. We're
18 going to have to show that --

19 MR. MCGUIRE: Yeah.

20 MR. OTTO: -- later, like the number of 90-
21 year-olds that voted. In Colorado, the fact that
22 nearly -- there's -- nearly every precinct is voting
23 at over 100 percent, some as high as 130, 140 percent.
24 So, I mean, there's some massive issues going on with
25 this mail-in voter fraud, massive issues. And they

1 know it at the voter side.

2 So, first of all, I want to talk about who
3 Dominion is. What this is going to concentrate on is
4 going to be at Dominion. So, who runs the company and
5 why is that important. The conversation will be about
6 a man named Eric Coomer, C-O-O --

7 MR. McGUIRE: Can I have that image?

8 MR. OTTO: -- M-E-R.

9 MR. McGUIRE: Do we have an image of his face
10 we can put up?

11 MR. OTTO: I do. Hold on a second here.

12 MR. McGUIRE: We didn't get it over to Evan?

13 MR. OTTO: I did not. It -- Max, it is
14 capture image 31 in the file that I sent to you.

15 MR. McGUIRE: What -- on -- on all of those
16 files?

17 MR. OTTO: Yeah. Well, they --

18 MR. McGUIRE: Okay. Keep --

19 MR. OTTO: -- I know --

20 MR. McGUIRE: -- talking. I'll have to find
21 it. This is -- this is going to take a while.

22 MR. OTTO: Okay.

23 MR. McGUIRE: Keep talking.

24 MR. OTTO: So, his name is Eric Coomer,
25 right? Now, up until March of this year, he was the

1 Vice President of Security. He was the Vice President
2 of Product Development. He was the Vice President of
3 Product Development. Now he lists himself as a
4 Director of Strategy and Security.

5 MR. McGUIRE: What number did you say?

6 MR. OTTO: Thirty-one. It's going to be him
7 in his --

8 MR. McGUIRE: Yeah --

9 MR. OTTO: -- little --

10 MR. McGUIRE: -- that's --

11 MR. OTTO: -- outfit.

12 MR. McGUIRE: -- it. All right. Mr.
13 Producer, put up my screen. Let's just keep my screen
14 up and I'll just keep throwing things up there as we -
15 -

16 MR. OTTO: So --

17 MR. McGUIRE: -- we talk about it.

18 MR. OTTO: -- so, guys, so he is the Director
19 of Strategy and Security for Dominion Voting Systems.
20 Now, he was the VP, but really what you need to know
21 about it is Eric is an owner of Dominion Voting
22 Systems.

23 MR. McGUIRE: He has shares.

24 MR. OTTO: He has shares, large shares, large
25 amounts of shares, like very large amounts of shares.

1 Now, I'm going to verify how many shares he has and
2 what part he owns. But we also know that he owns
3 collectively with other people in the organization.
4 He owns patents on election equipment and IP --

5 MR. McGUIRE: And we know that -- that
6 ownership is connected with Nancy Pelosi, right? We -
7 -

8 MR. OTTO: All right. Hold --

9 MR. McGUIRE: -- know --

10 MR. OTTO: -- on. Let --

11 MR. McGUIRE: -- that --

12 MR. OTTO: -- let me --

13 MR. McGUIRE: -- there are people -- there
14 are people in Nancy Pelosi's office connected to it --

15 MR. OTTO: All right. Listen --

16 MR. McGUIRE: -- you know.

17 MR. OTTO: -- I've got a whole thing I need
18 to go through, so just let me get through this --

19 MR. McGUIRE: Okay.

20 MR. OTTO: -- okay?

21 So, I want to give you context on how I got
22 to Eric Coomer, right? So, I want to go back to about
23 three weeks ago, I gave a speech at an FEC United
24 meeting. And, in that meeting, what you may or may
25 not know is that I'm in the data business, right?

1 And, so, I have an incredible -- and part of being in
2 the data business, I understand code. I understand
3 what code can do. I understand how to manipulate that
4 code. I also understand what the history is.

5 Can you take that down, please?

6 MR. McGUIRE: You don't -- you don't want
7 that up there? I'm just --

8 MR. OTTO: No. Not yet.

9 MR. McGUIRE: -- adding a little context.

10 MR. OTTO: No.

11 MR. McGUIRE: All right.

12 MR. OTTO: So, and through the data, I mean,
13 I got involved in FEC United to help people in the
14 community because they didn't have a voice. We have
15 democrat leadership across the country that basically
16 is coming down on people.

17 So -- so, I had -- I got incredibly focused
18 on ANTIFA, right, and the threat of their infiltration
19 of our journalism and the Democratic Party.

20 So, in the past, you've probably seen the
21 video that Project Veritas put out there of Kris
22 Jacks, right? He's the Our Revolution leader in
23 northern Colorado who called for the beheading of
24 Americans in the street. He also --

25 MR. McGUIRE: Do we have that video?

1 MR. OTTO: No, Max. You want to find it for
2 me?

3 MR. McGUIRE: Okay. I'm --

4 MR. OTTO: Listen, I don't have that.

5 MR. McGUIRE: -- this is your -- this is your
6 party.

7 MR. OTTO: All right. Look, I have over 200
8 things that I want to actually go over. We're not
9 even going to even be able to get through all 200.
10 So, I'm going to post them inside of a place where we
11 can actually get to them, people can see them. So,
12 I'll post that in there as well, right? But, if you
13 can put -- if you can grab it, then great. Let me
14 finish this part, okay?

15 So, if you check out the video from Project
16 Veritas, you'll see they stated they hold a majority
17 of seats in the Democrat Party across Colorado, that
18 Our Revolution does.

19 Now, in the subsequent video, as I started
20 doing more research, I'm a research junky, right, I
21 observe a journalist who has been known for rhetoric -
22 - as a rhetoric junky and ANTIFA member down in
23 Colorado Springs. She's a -- so, she is also an Our
24 Revolution leader on the southern Colorado side,
25 right? And she works for and uses systems at the

1 Business Journal and Colorado Springs Independent to
2 gather and dox people in the community. She passes
3 off that information to other people.

4 Now, what she doesn't know, right, and I'm
5 gong to tell you -- I mean, and -- and going through
6 all this process, her name is Heidi Beedle, H-E-I-D-I,
7 Beedle, B-E-E-D-L-E. I hope she's listening, because
8 I'm not done with you yet, right? So, she uses that
9 to gather information. And then, the use of this --
10 and the use of gathering intel and infiltrating calls
11 and groups and collecting information on individuals,
12 we uncovered 13 and -- excuse me, journalists across
13 Colorado that were ANTIFA activists that were
14 journalists, one of which being this Heidi Beedle.
15 Now, her name's not that important other than the fact
16 that she led me to other people, and that her loose
17 lips and the fact that she talks about things allowed
18 me to gather more information on other people.

19 So -- so, in -- in the middle of all of this,
20 as we start infiltrating these groups, I was able to
21 get on a call, an ANTIFA call. You know, again, the
22 idea ANTIFA, right? It's not -- it's not a real
23 thing. They -- they basically say that it's -- it's
24 not real. Well, I'm going to tell you, it is real.

25 By the way, hit the share button. There's no

1 reason why you shouldn't be sharing this, right?

2 And, so, I was on the call discussing, quote,
3 unquote, fascists, and it was fascinating, honestly,
4 to see how they thought and spoke. I mean, the amount
5 of rhetoric that they did, it was downright scary,
6 actually, because I couldn't identify with what they
7 were -- what they were talking about.

8 As the call carried on, a person who called
9 himself Eric was on the call. Now, I can't tell you
10 if it's the same Eric, but I'm going to tell you how
11 it led me to gather the rest of this information,
12 right? So, I'm going to go through some of my notes
13 here, okay?

14 So, he adds -- basically, I have a bunch to
15 add. This is the Eric speaking. We have prepared for
16 the new future where we put down these fascist F's,
17 right? I'm not going to use the word because I want
18 everybody to be able to hear this. Somebody
19 interrupts, Who's Eric? Someone else enters, Eric is
20 the Dominion guy, right? Now, the fact that ANTIFA
21 knows that he's a Dominion guy, and I'm on this call,
22 and everyone's like, Oh, oh, he's a Dominion guy,
23 okay. So, Go ahead, Eric, came from somebody else.

24 So, Eric responds -- so, actually, somebody
25 actually interrupts. First he says, What are we going

1 to do if effing Trump wins, right? As in somebody's
2 frustrated and they're -- they're talking on this
3 call. And he responds, and I'm paraphrasing this,
4 right, Don't worry about the election. Trump is not
5 going to win. I made effing sure of that, ha-ha-ha-
6 ha. And everyone's like, Yeah. And then somebody
7 else responds, Effing right, right?

8 So, Eric continues to fortify -- this person
9 Eric continues to fortify groups and recruiting, and
10 he's eccentric (ph) and very boisterous. And
11 compared to what I remember hearing in his other
12 videos, I think it's a match, but I can't be sure.
13 So, I'm going to put that out there. But I can be
14 sure of everything else I'm about to share with you,
15 right?

16 So, I laughed at the time, but I did my
17 research and I discovered Eric Coomer, who worked at
18 Dominion Voting Systems. I did not find anything out
19 of the ordinary. He's -- he's got his doctorate out
20 of California, right? Very smart guy. Has multiple
21 degrees and, you know, Dr. Eric Coomer. You can --
22 you can look him up too.

23 But, inside of discovering all this
24 information, I found out that, you know, he's got
25 secret email addresses, and he's got, you know,

1 Twitter handles that he hides behind, and I found all
2 sorts of crazy stuff. Now, again, I'm in the data
3 business. So, if you don't think I can find out
4 things, I'm going to tell you: Be very careful,
5 there's always a fingerprint, right? And he should
6 know that, but he's just -- you know, you've got to
7 know one data guy to see another data guy.

8 So -- so, I'm walking through this process,
9 and I -- I did not actually put together that -- so, I
10 just put him in a -- in a box, right? Gathered
11 information on him, put it over there. I -- I
12 honestly didn't know that Dominion Voting Systems was
13 as prevalent across the country as it is. I didn't
14 put two and two together, right? I didn't actually
15 even know that we started using it in Colorado,
16 because I -- I initially went to Colorado and I
17 figured, Ah, who in their right mind of a massive tech
18 company would have a office just in Denver. And then
19 I started looking at other things, which we'll --
20 we'll be able to look at, which is reviews where
21 people say that they're cheating America, right? And
22 I was like, Ah, I put that aside, yet.

23 So, fast forward to Friday. I get a text
24 from a friend. He sends me over a story about
25 Dominion Voting Systems being tied to the Clinton

1 Foundation and to Diane Feinstein, Diane Feinstein's
2 husband, and long-time campaign manager. The
3 information started to pour in.

4 Then I got another set of texts from another
5 friend of mine. He sent me a Facebook post and just
6 about Dominion Voting Systems. And -- but -- and when
7 I read that -- when I read that, it said -- Eric
8 Coomer popped up. So I recalled the name, and I went
9 back into my notes. And I was astonished. I'm like,
10 Wait a minute. This is -- this is too weird, right?
11 They're talking about this, talking about the fact
12 that it's -- it's fraudulent.

13 And, by the way, you can manipulate a -- an
14 election in multiple ways, not just with barcodes, not
15 with any of that stuff. You can manipulate it just by
16 randomization, so using randomization models in order
17 to change votes, or to skip over votes. So that means
18 you have 20 -- 20 ballots, you could say, Yes, yes,
19 no, yes, yes, no, no, no, yes, yes, yes. It'll still
20 record that as 20 votes, but the real tally of the
21 votes will either be switched to the -- to Biden,
22 let's say, or they'll be removed as no, okay? Very
23 easy to do in code. And, by the way, they've made the
24 code proprietary, which means no one -- they're
25 looking at the wrong place. They keep saying, Hey,

1 there's fraud. We know there's fraud. Like everyone
2 knows there's fraud, massive amounts of fraud, but
3 they're not looking in the right place.

4 So, I -- as I was seeing it as the same guy
5 as this braggadocios guy that was on there that was
6 sure Trump was not going to win, I started digging
7 into everything Eric Coomer. Now, what you are about
8 to see is everything about this guy, and it should
9 scare you, right? So, this guy's responsible for
10 system security. He's responsible for strategy. He's
11 actually more responsible for building the tech that
12 is actually being implemented in these different
13 states.

14 Now, I started getting intel to get access to
15 Facebook posts, access to other information, things
16 that -- he was involved in court cases. I started
17 checking his criminal history just to see if he had
18 one, and he does. And I started going through
19 different things, right, and just trying to put two
20 and two together so that I had a -- more information.
21 Well, the more information I got, the scarier it got,
22 right?

23 So, people, listen to what he did, right?
24 I'm going to just tell you right now. If you go all
25 the way back to 2016, he disconnected his Facebook

1 page and went dormant for a little while. But, in
2 2016, he was so vile about Trump in 2016 winning. He
3 was so vile. And -- and, by the way, I verified,
4 based on all the posts, that this is the same guy that
5 works at Dominion, right? But, that -- that vulgarity
6 just started to grow. And, when he came back online
7 this year, the things that he was writing and putting
8 out there, including an ANTIFA manifesto -- remember,
9 it's just an idea -- but he actually posted that on
10 his Facebook page. What was even scarier is the
11 information that I was able to gather from the people
12 that were actually commenting on his posts.

13 So, I'm going to show you some of this stuff,
14 and I'm going to tell you, this is why, when you put
15 stuff out on the internet, own it. When you say
16 something, you have to know -- you have to know -- you
17 have to own it, right?

18 So, I'm going to -- I'm going to dive into it
19 now. I'm going to start sharing some of this stuff
20 with you about this guy. And, frankly, you're going
21 to have to tell us what you think. But this is
22 completely scary.

23 Max, you got a chance to see this. What --
24 what are your thoughts just on the information that
25 you've been able to review? And I know you've had

1 baby duty and everything else.

2 MR. McGUIRE: So, it's obvious that he has
3 clear bias. It's obvious that -- that he is in a
4 position to use that bias to negatively affect
5 election outcomes, or at least election outcomes in
6 places that use Dominion Voting services -- Voting
7 Systems, whatever. The challenge is that smoking gun,
8 that -- saying that he did use that bias and use --

9 MR. OTTO: And --

10 MR. McGUIRE: -- that availability and
11 actually do something about it. That is what needs --
12 what we need to prove. And you heard that on the
13 phone call.

14 MR. OTTO: Yeah.

15 MR. McGUIRE: He's probably -- if this gets
16 back to him, he'll probably say that he was just
17 joking, like --

18 MR. OTTO: He was joking --

19 MR. McGUIRE: -- when -- when --

20 MR. OTTO: -- on the phone call with the
21 ANTIFA people? I mean --

22 MR. McGUIRE: That's what they'll --

23 MR. OTTO: -- keep in mind --

24 MR. McGUIRE: -- say.

25 MR. OTTO: -- he was on the phone with --

1 MR. McGUIRE: Yeah.

2 MR. OTTO: -- ANTIFA. He's on the phone with
3 ANTIFA.

4 MR. McGUIRE: I know.

5 MR. OTTO: I'm on a call. I've infiltrated
6 ANTIFA. I've been able to uncover people that are
7 ANTIFA people, right? And -- and he's going to tell
8 us that he was just joking? He was brag -- he was
9 bragging about it and joking --

10 MR. McGUIRE: That's --

11 MR. OTTO: -- about it?

12 MR. McGUIRE: -- what he'll say.

13 MR. OTTO: Okay.

14 MR. McGUIRE: That's what he'll say.

15 MR. OTTO: But even if he says that, we have
16 to honor the code, right? And even if he says that,
17 some of the information that he put on his Facebook
18 page, no state in this entire country should use
19 Dominion Voting Systems ever again once they hear
20 this, once they go through this. And I promise you,
21 this is going to get out to everyone. It's going to
22 get out to every single network out there. They're
23 going to say, Oh, my gosh, this is the guy that's
24 responsible for Dominion Voting Systems security.
25 This is the guy that writes code. And it's even more

1 than that. He has his fingerprints in every city.

2 I'm going to show you a bunch of things. I'm going to
3 send over some stuff to you now.

4 So, let's go to -- cut, if we can, let's just
5 get to the -- the easiest one, I think, for people to
6 understand, and that is capture -- well, let's go back
7 in time.

8 MR. McGUIRE: Which one?

9 MR. OTTO: Let's go to the one on July 16th,
10 capture 72.

11 MR. McGUIRE: I can't -- I can't -- capture
12 72, okay.

13 MR. OTTO: Yeah.

14 MR. McGUIRE: Give me a second. I have to
15 find what email 72 is in. I'm going to guess it's in
16 three. Nope. Let me go to four.

17 MR. OTTO: So, let me -- let me start reading
18 it while you -- while you -- while you pull it up,
19 okay, because people are going to be listening to
20 this. So, this is from Eric Coomer on July 21st,
21 2016. This is dating all the way back to --

22 MR. McGUIRE: I --

23 MR. OTTO: -- 2016.

24 MR. McGUIRE: -- go ahead. I put up my
25 screen.

1 MR. OTTO: And it says, Facebook Friend Land,
2 open call: If you're planning to vote for that
3 autocratic, narcissistic, fascist, asshat blowhard and
4 his Christian jihadist VP pick, unfriend me now. No,
5 I'm not joking. I'm all for reasoned political
6 discourse and healthy debate, but looking at you --
7 and he names people -- I disagree with the three on so
8 many philosophical grounds, but respect your opinions.
9 Only an absolutely effing idiot could even vote for
10 that windbag f-tard, racist, fascist --

11 MR. McGUIRE: Fascist.

12 MR. OTTO: I'm sorry. -- fascist, racist F.
13 No BS. I don't give a damn if you're friend, family,
14 or random acquaintance, pull the lever, mark an oval,
15 touch the screen for that carnival barker, unfriend me
16 now. I have no desire whatsoever to even interact
17 with you. You are beyond hope, beyond reason. You
18 are controlled by fear, reaction, and BS. Get your S
19 together. Oh, and if that doesn't persuade you, F
20 you. Seriously, the effing ass-clown stands against
21 everything that makes this country awesome. You want
22 in on that? You deserve nothing but contempt.
23 Hashtag Un-Trump me. I think that hashtag might go
24 viral. Hashtag Taking a Stand. Rant. Not really.
25 Unfriend me. Hashtag Un-Trump Me. Hashtag You are

1 Beyond Hope.

2 Edit: I put the end tag in the wrong spot.

3 Second Edit: These opinions are rational and
4 completely my own. They are based on reason and
5 highly credible.

6 So, look, we'll be putting these onto
7 somewhere you can read it. And -- but, I mean, I got
8 to tell you, this is dating back to 2016, right? This
9 is not --

10 MR. McGUIRE: Do you want to go through the
11 comments?

12 MR. OTTO: Yeah, I do. That's on capture 73.

13 MR. McGUIRE: Yep. So, you got -- we -- we
14 really shouldn't show the comments because we do have
15 people on here that we can't really put up. So, we --

16 MR. OTTO: We should --

17 MR. McGUIRE: The comments --

18 MR. OTTO: -- then.

19 MR. McGUIRE: -- aren't censored. No, we --
20 we cannot share someone's name if they're not the
21 subject of this investigation.

22 MR. OTTO: Well, hold on --

23 MR. McGUIRE: We can't just share people.

24 MR. OTTO: You should see some of the --

25 MR. McGUIRE: We'll get --

1 MR. OTTO: -- comments --
2 MR. McGUIRE: -- taken --
3 MR. OTTO: -- though.
4 MR. McGUIRE: -- down by Facebook.
5 MR. OTTO: Well --
6 MR. McGUIRE: But we'll be taken down by
7 Facebook. This guy's a public figure working for
8 Dominion.
9 MR. OTTO: Yeah.
10 MR. McGUIRE: He's outspoken (inaudible). We
11 cannot share anything that has a comment on it that
12 has someone who isn't Eric Coomer.
13 MR. OTTO: Until you start doing research --
14 MR. McGUIRE: I know.
15 MR. OTTO: -- on some of these other people
16 and what positions they hold --
17 MR. McGUIRE: I know, but that doesn't matter
18 --
19 MR. OTTO: -- that's next.
20 MR. McGUIRE: -- right? It --
21 MR. OTTO: That'll be the next one.
22 MR. McGUIRE: -- it's --
23 MR. OTTO: All right. All right.
24 MR. McGUIRE: -- it's not a matter --
25 MR. OTTO: Yeah.

1 MR. McGUIRE: -- of what we think. If we do
2 it, Facebook will take us down, YouTube will take us
3 down. It's not worth it.

4 MR. OTTO: So, if you go back, and we'll kind
5 of go through this, September 7th, 2016. So, for
6 those of you who don't know, Philadel -- excuse me.
7 Pennsylvania is run by Dominion Voting Systems, right?

8 And, Max, can you please tell the audience
9 how many out of -- in -- in Philadelphia got -- back
10 in 2012 got --

11 MR. McGUIRE: (Inaudible).

12 MR. OTTO: -- Romney's vote? Can you go
13 through that real quick?

14 MR. McGUIRE: Yeah. Yeah. There were 59
15 precincts in Philadelphia in 2012 that had not a
16 single vote cast for Mitt Romney, which is a
17 statistical anomaly. The anomaly -- anomaly of all
18 anomalies because it -- it says that not even one
19 person accidentally voted for Mitt Romney, which is --
20 it just doesn't happen. You don't have 59 precincts
21 where not a single vote is cast for one person, even
22 if by accident, even -- I mean, you can't say there's
23 not a single conservative in 59 precincts in
24 Philadelphia.

25 MR. OTTO: Right.

1 MR. McGUIRE: It just -- it just doesn't add
2 up.

3 MR. OTTO: Right. And keep that in mind: 59
4 precincts; not one person voted for Mitt Romney. And,
5 by the way, that -- that anomaly was never actually --
6 nobody looked into it. Nobody even -- nobody even
7 questioned it, right?

8 So, let's go to October 9th, 2016, so capture
9 68.

10 MR. McGUIRE: I can't. I'd have to edit it.

11 MR. OTTO: Why?

12 MR. McGUIRE: I can't. Because you included
13 people that aren't him, so I have to edit it right
14 now. Give me a second.

15 MR. OTTO: All right. Well, let -- let's go
16 up to, then, the -- if we can really quick.

17 And, guys, I don't have the ability to share
18 my screen or I'd be sharing all of these, right? But
19 you can go in here --

20 MR. McGUIRE: All right.

21 MR. OTTO: Okay. You got it?

22 MR. McGUIRE: Yeah, in a second. Let me
23 throw it up there. Is that right? No. Where'd it
24 just go? Yes. Okay. Put up my screen.

25 MR. OTTO: So, this says, Where were all you,

1 because in December -- excuse me, October 9th, 2016 --
2 so this is before the 2016 election. Now, I'm going
3 to show you stuff in 2020 which'll show you how
4 radical he's become from even here. But, Where are
5 all you clowns, those of you wringing (ph) your hands
6 and clutching your or your wife's pearls now that
7 Trump has, quote, unquote, insulted your women when --
8 and he -- he misspelled it because he's talking about
9 -- you'll see that he's talking about people in -- in
10 Texas specifically -- when he was spewing equally vile
11 stuff about Mexicans or Muslims or threatening to lock
12 up women that have abortions. You're the same clowns
13 calling for Pence to take over for Trumpet (ph), a man
14 so reprehensibly anti-woman he couldn't look more
15 appropriately dressed in animal skin and carrying a
16 club. Take a giant look in the mirror; there's the
17 real problem. This daily rant brought to you by the
18 letters F and U. Right?

19 Now, (inaudible) --

20 MR. McGUIRE: That's the guy in charge of
21 security at Dominion Voting Systems?

22 MR. OTTO: That's the guy in charge of
23 security.

24 MR. McGUIRE: Yes.

25 MR. OTTO: Now, let's go to -- and -- and

1 this is crazy. Let's fast forward a little bit
2 because I want -- I want to get into this year, but I
3 want to --

4 MR. McGUIRE: Just give me --

5 MR. OTTO: -- go ahead --

6 MR. McGUIRE: -- give me the capture number
7 because --

8 MR. OTTO: The capture number --

9 MR. McGUIRE: -- I can't search by --

10 MR. OTTO: -- that's --

11 MR. McGUIRE: -- (inaudible) so I have to go
12 all the way back to another one. Let's see.

13 MR. OTTO: Now, keep in mind, people, I
14 didn't know anything about this when I intercepted
15 this call that he was on -- supposedly on, right,
16 where somebody said that it was Eric from Dominion --

17 MR. McGUIRE: All right.

18 MR. OTTO: -- and he was talking --

19 MR. McGUIRE: Go ahead. Put up --

20 MR. OTTO: -- about this.

21 MR. McGUIRE: -- my screen.

22 MR. OTTO: So, this is on June 2nd of this
23 year. This is the ANTIFA manifesto that Eric Coomer
24 actually reposted, right? He reposted it.

25 Now, if -- if you go to image 10, right,

1 capture image 10, and you --

2 MR. McGUIRE: (Inaudible).

3 MR. OTTO: -- go to -- you go to 11 --

4 MR. McGUIRE: That's in a different email.

5 Give me a second. No one can read that fast, so --

6 MR. OTTO: And I'm not -- we're going to --
7 we're going to -- I'll drop these inside the comments,
8 right? So we will build a thing so you can actually
9 see what he actually put out there, right? But this
10 is the ANTIFA manifesto that they actually wrote. So,
11 I would not be surprised -- I didn't say he did, but I
12 would not be surprised if he was the one writing it.
13 He seemed like the mastermind when he was on the call,
14 but I can't -- I can't say that for a fact.

15 Now, keep in mind, this guy has a doctorate
16 from Cal -- from, I think, Poly -- I'll check the --
17 from California, right, a doctorate.

18 MR. McGUIRE: Just a head's up. We cannot
19 share image 12 because you included people in the
20 comments section. So, I have -- I just edited it.
21 But we can't share it as is, so don't put that on --
22 in the comments section.

23 MR. OTTO: Okay. So, we'll -- we'll talk
24 through that. Go ahead and make a note of that, Evan,
25 so we can --

1 MR. McGUIRE: There's --

2 MR. OTTO: -- make --

3 MR. McGUIRE: -- com --

4 MR. OTTO: -- the --

5 MR. McGUIRE: -- there's -- there's that one,
6 but we can't --

7 MR. OTTO: Okay.

8 MR. McGUIRE: -- we can't share it as you
9 sent it over.

10 MR. OTTO: So, this is a four-part -- taking
11 screenshots, four-part diatribe by ANTIFA, you know,
12 the organization that's just an idea, that you'll see,
13 that was --

14 MR. McGUIRE: Well, let -- let --

15 MR. OTTO: -- reposted --

16 MR. McGUIRE: -- let's -- let's read a bit of
17 it. Let's read a bit of it, because we do have --
18 remember, we have people listening to the audio
19 version.

20 So, it says, Dear Mr. Trump: Let us be
21 perfectly clear: ANTIFA isn't an organization.
22 There's no memberships, no meetings, no dues, no
23 rules, no leaders, no structure. It is literally an
24 idea and nothing more.

25 This -- an idea has its own manifesto. Even a

1 claim of this author to represent ANTIFA is one made
2 unilater -- unilaterally for the purposes of this
3 communication and nothing more. There is no governing
4 body nor trademark on our -- this is so stupid -- to
5 dispute the author's right to represent ANTIFA.

6 ANTIFA is -- is constructed from a contraction of the
7 phrase anti-fascist. The truth is, there's no such
8 thing as being anti-fascist. Either you are a decent
9 human being with a conscience or you are a fascist.

10 That's crazy.

11 The President of the United States has today
12 openly declared that he is a fascist and that he
13 intends to turn the military power of the United
14 States into a fascist tool. Now there is no question,
15 and we can stop -- and we can stop pretending that
16 this man represents anything but the worse in
17 humanity, which is his -- which his supporters embody,
18 and that is the only affect his words will have. It
19 will -- it will likely be no problem for law
20 enforcement officers to identify the author of this
21 document, who has -- who also has maintained the
22 ANTIFA page on Facebook since its founding in 2017.
23 The author of this document is unconcerned with that
24 inevitability because neither that author nor this
25 document has been involved in a crime of any sort, in

1 any way. But, since both the president and the media
2 insist on acting as both ANTIFA is this big scary
3 organization, the author supposes it's time for ANTIFA
4 to make a statement.

5 So, it's saying ANTIFA is an idea, but
6 ANTIFA's also going to make a statement.

7 Thus, ANTIFA supports and defends the right
8 of all people to live free from oppressive, abusive
9 power, whether that power is unjustly derived from
10 wealth, status as an employer, or political
11 popularity.

12 So, it's just all these -- craziness. But I
13 wanted to read a little bit of it because we do have
14 people listening to the audio version, and this is the
15 guy who's in charge of security at Dominion Voting
16 Systems. Dominion Voting Systems which, by the way,
17 we also know works with the Clinton Foundation.

18 MR. OTTO: Yeah.

19 MR. McGUIRE: Look right here. In 20 -- in
20 2014, Dominion Voting is committed to providing
21 emerging and post-conflict democracies with access to
22 voting technologies through its philanthropic support
23 to the Delian Project.

24 This is the craziness of all of this.
25 Dominion --

1 MR. OTTO: They're not --

2 MR. McGUIRE: -- Voting System --

3 MR. OTTO: Is the same one that's being used
4 down in -- in Venezuela --

5 MR. McGUIRE: Yeah.

6 MR. OTTO: -- as well.

7 MR. McGUIRE: Yeah. Dominion Voting --

8 MR. OTTO: Same company.

9 MR. McGUIRE: -- Systems says that -- that
10 they're software is necessary because in third world
11 and developing countries where they -- it takes too
12 long to count the ballots, they say that the longer it
13 takes to count ballots, the higher the risk of
14 revolution, civil unrest, yada, yada, yada. So, they
15 says, Bring our systems in, and we'll cut down the
16 time it takes for you to call an election so you won't
17 have all this unrest brewing over an uncertain
18 outcome.

19 And here Dominion is taking over in a large
20 part of the country, and all -- and how they're being
21 run around the country, and we still don't have the
22 vote finished. So, they're -- they're kind of talking
23 out of both sides of their mouth. They're saying that
24 our systems will make sure that the votes are counted
25 quickly so you don't have to worry about unrest, civil

1 unrest, uncertainty of who won; but, at the same time,
2 as they're being used, we're seeing the slowest count
3 of ballots in at least my lifetime. I've never seen
4 it go this long where -- where states still haven't
5 finished. Look at Nevada. Nevada is counting like
6 20,000 ballots a day. That's it. It's insane. And -
7 -

8 MR. OTTO: So --

9 MR. McGUIRE: -- this is the guy who's in
10 charge of it.

11 MR. OTTO: -- so I just shared with you the
12 June 2nd post by Eric Coomer, which is a New York
13 Times article about George Floyd. I just shared it
14 with you in --

15 MR. McGUIRE: Yeah. That's right. Put up my
16 screen. It's up there now.

17 MR. OTTO: So, by the way, I'm actually now
18 just going to send them over the Max. I'm going to --
19 I'm going to white out what people are saying. But
20 this is the type of people that he hangs out with,
21 hashtag F the Police. There's no excuse for this to
22 happen.

23 Now, look, before we actually watch the
24 video, 99 percent of America was behind (ph) of it.
25 They never released the video, right, for George

1 Floyd, ever. They didn't release it. And, frankly, I
2 -- you know, we -- you -- me and you had some big
3 discussions about -- about this in -- in particular,
4 right? We were on opposite sides of what we actually
5 believed, right?

6 MR. McGUIRE: I think you came to my side
7 towards the end.

8 MR. OTTO: Yeah. So --

9 MR. McGUIRE: I think.

10 MR. OTTO: -- this is on May 31st, so capture
11 number 16. This is what he put on May 31st.

12 MR. McGUIRE: Let me find it. This is -- can
13 we share it? Yes, we can. So, once again, and he
14 nails it, Cop explains how it feels to live every day
15 in fear of someone might record you brutalizing a
16 civilian, from the onion.com.

17 I mean, if you're a leftist, that's leftist
18 humor.

19 MR. OTTO: So --

20 MR. McGUIRE: It's -- it's the idea that cops
21 are afraid that they'll be recorded brutalizing a
22 civilian. I mean, that's --

23 MR. OTTO: Now let's show --

24 MR. McGUIRE: -- that's leftist --

25 MR. OTTO: -- them on the --

1 MR. McGUIRE: -- satire.

2 MR. OTTO: -- same day, May 31st, a YouTube
3 video that he posted on capture 17, and you can share
4 this.

5 MR. McGUIRE: Yep. Pigs for Slaughter. I
6 don't know about the music, but --

7 MR. OTTO: You -- if you -- they shot an
8 innocent five-year-old kid, murdered in his bed. So,
9 this is -- this is -- this follows the next one that
10 you're actually going to see, which is capture 20, May
11 31st.

12 MR. McGUIRE: Yeah. Dead Prez (ph), Top
13 Shot. Top Shot.

14 MR. OTTO: On YouTube. Now, if you --

15 MR. McGUIRE: So --

16 MR. OTTO: -- go actually --

17 MR. McGUIRE: -- so it's -- we -- we know
18 this guy's a leftist --

19 MR. OTTO: Hold on. Keep going. You go to
20 May 31st. Again, this is the guy that's responsible
21 for your elections. Now, we already know that there's
22 fraud, right? We already know the -- the Benford law
23 has actually shown the fraud that more 90-year-olds
24 have voted for -- for Biden than ever before in the
25 history of -- of anyone, right?

1 Here's another one from May 31st where The
2 Exploited F the USA, hardcore. So this is in a
3 version on YouTube where he's basically saying F the
4 USA --

5 MR. McGUIRE: Yeah.

6 MR. OTTO: -- all right? You go to --

7 MR. McGUIRE: You --

8 MR. OTTO: -- just the --

9 MR. McGUIRE: -- you mentioned -- you
10 mentioned -- let me make sure I can -- yeah. You
11 mentioned that -- that the Benford's law. Let's go
12 ahead and put this up on the screen. This is someone
13 who shared the Benford curve on Twitter, now being
14 locked out of Twitter for violating Twitter's rules.
15 And they say --

16 MR. OTTO: Yeah.

17 MR. McGUIRE: -- that talking about the
18 Benford law, Benford law's curve, which is the idea
19 that it is easily predictable how many -- how many
20 sequences -- data -- points of data in a large
21 dataset, how often the number 1, 2, 3, 4, 5, 6, 7, 8,
22 9 will appear as the first digit in that data
23 sequence. He -- this person shared it, and it -- he
24 was kicked off of Facebook, and it -- because that
25 sharing was classified as --

1 MR. OTTO: He was kicked off of Twitter.

2 MR. McGUIRE: -- (inaudible) --

3 MR. OTTO: He was kicked off of --

4 MR. McGUIRE: -- privately --

5 MR. OTTO: -- Twitter.

6 MR. McGUIRE: -- produced intimate media.

7 Basically saying that he's -- he's -- obscene
8 materials, graphic, sexual materials, sexual
9 exploitation.

10 MR. OTTO: Guys, I -- I haven't gotten to
11 this yet. I mean, it's -- it's crazy because they're
12 -- they literally are in cahoots together. They all
13 are. But, if you go to then capture 23 --

14 MR. McGUIRE: All right.

15 MR. OTTO: -- this is A.C.A.B., the 4-Skins,
16 again, this -- this is -- and then, if you go to --

17 MR. McGUIRE: All cops are bastards.

18 MR. OTTO: -- if you got to 24 --

19 MR. McGUIRE: That's what A.C.A.P. stands
20 for.

21 MR. OTTO: -- right? And you got to go watch
22 these YouTube videos. It's unbelievable. Twenty-four
23 Body Count --

24 MR. McGUIRE: Body Count, Cop Killer.

25 MR. OTTO: -- Cop Killer.

1 If you go to image 25 --

2 MR. McGUIRE: Can't. It has comments on it.

3 MR. OTTO: Here, let me go ahead and --

4 MR. McGUIRE: But it -- it's basically Dead
5 Cops, America So Straight, by MDC. So sharing videos
6 about dead cops.

7 MR. OTTO: Well, hold on a second. Let me --
8 let me -- let me get rid of this guy's name. You
9 don't -- and I'm actually doing it right now to send
10 it to you. But --

11 MR. McGUIRE: You don't need to go in depth
12 into the guy's entire iTunes. We -- we -- we know
13 that he's a leftist. We know that he hates the
14 police. We know he listens to music glorifying the
15 death of police.

16 MR. OTTO: Yeah.

17 MR. McGUIRE: And this is the guy in charge
18 of data security for Dominion Voting Systems. So, the
19 question we ask -- you heard him on the phone call
20 telling other people in ANTIFA, Don't worry, I made it
21 so that Trump won't win.

22 MR. OTTO: Well, and you --

23 MR. McGUIRE: And the --

24 MR. OTTO: -- would say --

25 MR. McGUIRE: -- question is --

1 MR. OTTO: -- and you would say, right, and -
2 - and -- and I had -- and I had to run this against
3 other people. And I said, Okay, Eric Coomer works at
4 -- at the -- at -- at Dominion, okay? I didn't know
5 he was even an owner at first. And then I was like,
6 Oh, well, let me pull some other information to see if
7 he's an owner, right? And then I pulled some
8 information on people that were connected to him that
9 had done business with him before, and the -- that was
10 even scarier. So that led me to get even more
11 information, which I'm about to share with you.

12 So, I'm going to -- I'm going to -- I'm going
13 to -- I'm going to send you a complaint, right? I'm
14 sending it to you right now. Got it? Go ahead and --

15 MR. McGUIRE: Yes.

16 MR. OTTO: -- pull that up.

17 MR. McGUIRE: All right. That's on the
18 screen now.

19 MR. OTTO: So, I'm going to show you. So,
20 this is a consortium of people that sued the State of
21 Georgia. Now, keep in mind, the state of Georgia is
22 one of the problems (sic) that's had massive issues.
23 I'm going to send some more of this stuff over that'll
24 -- we'll talk about that. But this court case was
25 filed on September 1st, okay? And, as you go to it,

1 Max, if you'll actually go to Exhibit 1 -- guys,
2 you're going to have to bear with me on this because
3 this is an actual case. And let me just tell you what
4 the case number is. So, it's Case 117CV02988 -- I'm
5 sorry, Case number --

6 MR. McGUIRE: 9-8-9-alpha-tango.

7 MR. OTTO: Yeah. Sorry about that. So,
8 117CV02989AT. Sorry. These glasses should do better.

9 MR. McGUIRE: And, so, the description of
10 this email, it's: Presidential candidates were not on
11 my ballot. When I complained to the polling agent, I
12 was told I had voted some months previously and the
13 machine remembered that and -- and gave me a ballot
14 without certain candidates names. Is that correct?
15 She also told me the last election was held on 02/20.
16 I did not remember that. I do remember voting at the
17 East Point Library some months previously, however.
18 My daughter lives in Sandy Springs, and she told me
19 her ballot had a list of presidential candidates, but
20 Joe Biden's name was absent on the ballot. She said
21 she had to vote for Bernie Sanders but was confused
22 because she thought he had -- he had dropped out of
23 the race. Please help explain this irregularity.
24 Thanks.

25 Now, that is an email from a concerned voter

1 who used Dominion system and reported that candidates
2 were missing on the ballot, and the excuse she was
3 given was that the machine remembered that she had
4 already voted for that candidate and didn't give her
5 the option to do it again.

6 MR. OTTO: Yeah. So --

7 MR. McGUIRE: And she says that she never
8 did.

9 MR. OTTO: And, guys, just so you know, we
10 can go through it, and as you start you start
11 scrolling through, these are affidavits from people
12 that complained about election issues. Now, keep in
13 mind, they said that there's -- the integrity of the
14 system is absolutely foolproof, right?

15 And you'll go to -- go to number -- Exhibit
16 6.

17 MR. McGUIRE: All right. We're here, Exhibit
18 6. This is an email from another person. Description
19 of the complaint: I voted in the primary on Tuesday,
20 06/09/2020, and selected nonpartisan as my party so I
21 could select the best candidate for the job. I was
22 only allowed to vote for the judges in my county and
23 that's it. I find that to be very disturbing that my
24 vote truly did not count, and I'm angry that I was not
25 given the opportunity to vote on the other election

1 candidates for president, senate, sheriff, or register
2 my preference on the numerous questions that were on
3 the ballot. Just because I'm not a registered
4 Republican or Democrat, I was stiffed from selecting
5 people I felt were the most qualified to represent me
6 and my country in the future. I am not -- I am -- if
7 I am a nonpartisan voter, I should be given all of the
8 options because that is what makes me a nonpartisan
9 voter.

10 So, the question I have is I don't know
11 Georgia law, but I know that in a lot of places you
12 can't vote in a primary unless you're a declared --

13 MR. OTTO: No, not in --

14 MR. McGUIRE: -- in --

15 MR. OTTO: -- Georgia.

16 MR. McGUIRE: -- that party.

17 MR. OTTO: Not in Georgia.

18 MR. McGUIRE: Georgia lets you do -- okay.

19 MR. OTTO: Right.

20 MR. McGUIRE: So, that -- that's a mistake.
21 They might have assigned those rules to her. That
22 could be a mistake where they thought that, if you're
23 not a Republican, you can't vote in a Republican
24 primary. It doesn't make sense that she wouldn't be
25 able to vote for sheriff or all these other things.

1 But, yeah. No, there's tons of these in this
2 document.

3 MR. OTTO: Well, go to number 25. So, this
4 is where it gets really interesting. And -- and, by
5 the way, I had to read all of these, and there's a ton
6 of them. But go to 25. And, Max, I'll let you read
7 that.

8 MR. McGUIRE: I was a little -- this is a
9 long one: At 7:30 a.m., no voters had been allowed to
10 begin the process, and poll workers had made no
11 announcement as to the reason of the delay.

12 She -- she arrived at the precinct at 7:00 --
13 at 6:15 and she was fourth in line. An hour and 15
14 minutes after she arrived, they wouldn't let her in.

15 The line in the parking lot was wrapped
16 around the building at this point. After proactively
17 questioning poll workers, learned machines were not
18 working and they were rebooting computers. Placed a
19 call to Cobb County Board of Elections and
20 Registration at 7:50 a.m. to notify them our machines
21 were not working at the precinct. The office was
22 unaware of the problem. Other voters asked for
23 provisional ballots and were advised they were not
24 available until the end of the day. That's -- that's
25 just not true.

1 Some voters started leaving because of the
2 inability of poll workers to provide any time frames
3 for voting and access to provisional ballots. A
4 sheriff came to the precinct and shared the problem
5 was statewide and due to programming, not poll worker
6 error.

7 MR. OTTO: Ah.

8 MR. McGUIRE: He -- he very --

9 MR. OTTO: What did it say?

10 MR. McGUIRE: -- professionally --

11 MR. OTTO: Programming.

12 MR. McGUIRE: Due to programming --

13 MR. OTTO: Right.

14 MR. McGUIRE: -- not poll worker error.

15 He -- he very professionally shared updates
16 with the voters waiting outside, and walked all the
17 lines to share reasons for the delay. Finally
18 provided a provisional ballot at 9:15 a.m. after my
19 passport ID was input manually, but the computer did
20 not read the card. My ballot was successfully scanned
21 after turning in the provisional ballot.

22 In closing, I am 66 years old and cannot
23 believe a nation that successfully sent astronauts to
24 the moon in the sixties continues to fail citizens in
25 the most basic tenant of a democracy. Georgia has

1 dozens of excellent universities with thought leaders,
2 engineers, cyber specialists, mathematicians, and
3 policy gurus. We have no excuse for ignoring their
4 talent and continuing to make a mockery of the right
5 to vote. Georgia is way overdue to step up and
6 perform competently.

7 As a senior, my health, physical access, and
8 mobility should never be adverse factors in my ability
9 to vote. It is projected that one-fifth of the
10 population will be seniors in a few years, and we must
11 not be excluded from our constitutional right to vote
12 through sheer callousness and narrow thinking.

13 Yeah. No. So, it's -- it's clear that there
14 are problems. And -- and the fact that they reported
15 it as being programming, no user error, we saw so many
16 of these -- of these cases on election day this year
17 where, I -- I think it was in Georgia, but it was also
18 on North Carolina and Pennsylvania. You had polling
19 places not opening because they said the machines just
20 weren't working.

21 So, it -- it's -- it's really hard, because I
22 don't want to have a conspiratorial mindset, right? I
23 want to believe that when elect -- results are posted,
24 we can believe it. But, when you see all of these
25 discrepancies, all this evidence of people being

1 disenfranchised, machines having errors, it being said
2 that it's programming mistakes, it just makes you
3 question the entire thing.

4 And again, we talked about it in the
5 beginning, the idea of the -- of the barcodes, of how
6 -- how the tabulators work. It's just -- this is too
7 big of a deal to trust this to one of four companies.
8 Like, there are four major companies that run election
9 electronic voting around the country. It's just --
10 it's too much to trust the future of this country to -
11 -

12 MR. OTTO: Okay.

13 MR. McGUIRE: -- especially when we see that
14 they are -- are not only connected to Democrats on
15 their boards and -- and as lobbyists, but they also
16 work with the Clinton Foundation. That gets really,
17 really --

18 MR. OTTO: So --

19 MR. McGUIRE: -- frightening.

20 MR. OTTO: -- so, listen, this guy Eric
21 Coomer is, you know, he just is everywhere, right?
22 So, go pull up -- I just sent you another link.

23 MR. McGUIRE: Yep. I got --

24 MR. OTTO: You can --

25 MR. McGUIRE: -- it.

1 MR. OTTO: -- pull that one up.

2 MR. McGUIRE: You can go ahead and put up my
3 screen. It says: Eric Coomer's Declaration Under
4 Oath.

5 MR. OTTO: Yeah. And where is --

6 MR. McGUIRE: It's (cross talk) --

7 MR. OTTO: -- this?

8 MR. McGUIRE: -- oath.

9 MR. OTTO: This in --

10 MR. McGUIRE: (Cross talk).

11 MR. OTTO: -- Georgia, right?

12 MR. McGUIRE: In Georgia, same case. So,
13 they actually -- they didn't depose him, but they had
14 him submit a Statement Under Oath, it looks like.

15 MR. OTTO: Right. But, listen --

16 MR. McGUIRE: Ow (ph).

17 MR. OTTO: -- this was -- this case dates all
18 the way back to 11/13 of 2019, right?

19 MR. McGUIRE: Yeah.

20 MR. OTTO: So, if you look at this, though,
21 Eric Coomer is the one making the declaration: My name
22 is Eric D. -- Dr. Eric D. Coomer. I am over the age
23 of 21 years old, and I have no legal disability which
24 would prevent me --

25 MR. McGUIRE: Yeah.

1 MR. OTTO: -- from giving this declaration.
2 If -- if called to testify, I would testify under oath
3 to these facts. I am the Director of Product Strategy
4 and Security for Dominion Voting Systems. Dominion.
5 I was previously the Vice President of U.S.
6 Engineering for Dominion, and prior to that I was the
7 Vice President of Research and Development for Sequoia
8 Voting Systems. I have been in product development
9 for election systems since 2005.

10 Now, I want to go back to what you guys just
11 saw. Since 2005, he's been involved in elections.
12 The guy is as far left as you can possibly get, right?
13 He's writing things on his Facebook page that say F
14 the police. He's -- he's publishing the ANTIFA --
15 ANTIFA manifesto that came out in June. This guy
16 literally is the guy that is actually handling
17 security for an election company, and he --

18 MR. McGUIRE: Yeah.

19 MR. OTTO: -- hates Trump. And -- and
20 literally goes out and puts himself out there as if,
21 Hey, we don't care who wins. We're, you know,
22 bipartisan. He's actually said that, right?

23 So, now I want to get to -- I'm going to send
24 something else over to you right now. That was in
25 Georgia. And -- and this'll be really interesting.

1 If you'll go to -- I just sent it --

2 MR. McGUIRE: What --

3 MR. OTTO: -- over to you.

4 MR. McGUIRE: -- what do you want me to pull
5 up?

6 MR. OTTO: Just sent it to you. The
7 Secretary of State for Colorado.

8 Now, what you need to know about Colorado is
9 that --

10 MR. McGUIRE: You can put up the screen.

11 MR. OTTO: Yeah. And if you -- if you go to
12 page 26 --

13 MR. McGUIRE: Oh, geez.

14 MR. OTTO: Director of Project -- Product
15 Strategy, Eric Coomer --

16 MR. McGUIRE: Right.

17 MR. OTTO: -- graduated from the University
18 of California at Berkley in 1997 with a PhD in
19 nuclear physics. Oh, wow. Smarty pants. After
20 working in IT consulting for several years, Eric
21 entered the elections industry -- just think about
22 that, there's an elections industry -- in 2005 with
23 Sequoia Voting Systems as Chief Software Architect.

24 After three years with the company, Eric took
25 over all development operations as Vice President of

1 Engineering. When Sequoia was acquired by Dominion
2 Voting Systems in 2010, Eric joined the Dominion --
3 Dominion Voting Systems team as Vice President of U.S.
4 Engineering, overseeing development at the Denver,
5 Colorado office. Recently, Eric has taken over as the
6 Director of Product Strategy, driving the creation of
7 next generation products through a close collaboration
8 with customers, combined with a deep understanding of
9 technology and the needs of elections departments
10 throughout the United States and abroad.

11 Eric has been an active participant in the
12 development of the IEE -- IEEE Common Date Format for
13 election systems, as well as the working group for
14 developing standards for risk-limiting audits for
15 election results. When not designing new products,
16 Eric -- Eric supports large- and small-scale customers
17 during the election season.

18 That's his bio.

19 MR. OTTO: That is his bio. In 2015, right,
20 for the Colorado Secretary of State, for a document,
21 by the way, that is basically an RFP, a proposal,
22 project plan to take over.

23 Now, why I'm going to point that out is it's
24 going to have more to do with something else I'm going
25 to tell you. So, that was Colorado, right? Here is

1 the draft notes in Phoenix, Arizona. I just sent this
2 to you.

3 Now, that --

4 MR. McGUIRE: Okay.

5 MR. OTTO: Go ahead and put that up on your
6 screen.

7 MR. McGUIRE: Yeah, up on screen. Draft
8 notes. Where are we going on this one?

9 MR. OTTO: This is Arizona, another one of
10 the big issues where they quote, unquote, flipped,
11 right? So, this was in October of 2019. If you'll go
12 down, and you can actually just hit Coomer. Just look
13 for Coomer.

14 MR. McGUIRE: Eric Coomer.

15 MR. OTTO: So, he goes through --

16 MR. McGUIRE: Vice President.

17 MR. OTTO: This is really interesting, and
18 it's going to be long if we actually read it. But you
19 need to read this part all the way down how Coomer
20 said about interfacing with an optics, like using
21 optical scanners and things like that, and how things
22 that -- how new code and updates are actually carried
23 on by USB keys, right? Pretty interesting, right?

24 Now, anybody --

25 MR. McGUIRE: Yeah.

1 MR. OTTO: -- that knows about data and how
2 easy it is -- and you'll -- also in here, look at that
3 the equipment needed to be bought through one of their
4 vendors, right? So, the chairman actually has
5 concerns and says, Hey, listen, is it true that we
6 have to buy the Dell from your vendor, and he does
7 confirm that, yes, it is a Dell; but, yes, you have to
8 buy it from our vendor, right?

9 So, there's multiple ways that you can
10 actually trick a system. You can do it based on the
11 hardware side by doing hard uploads into the system.
12 You can do it on the software side. Software side is
13 actually more difficult to actually track.

14 But let me put this all together for you,
15 guys. So, you have a guy that is actually going to an
16 ANTIFA meeting that tells somebody else that,
17 proposedly (sic), that -- that he's got the election
18 in hand. He's in --

19 MR. McGUIRE: Well, not supposedly --

20 MR. OTTO: -- Colorado --

21 MR. McGUIRE: -- you heard it.

22 MR. OTTO: I did hear --

23 MR. McGUIRE: It's not --

24 MR. OTTO: -- it.

25 MR. McGUIRE: -- supposedly --

1 MR. OTTO: But I --

2 MR. McGUIRE: -- you heard it.

3 MR. OTTO: -- but I --

4 MR. McGUIRE: You heard it. You're --

5 MR. OTTO: -- but I --

6 MR. McGUIRE: -- you're an eye witness.

7 MR. OTTO: -- didn't see him, right? So, I -
8 - they identified him as Eric from Dominion, but I
9 didn't -- I mean, I have to basically say that there
10 could be -- maybe it's a different guy, but that led
11 to me to all the other things that I got, which is
12 getting access to Facebook, getting access to this
13 information.

14 So, now I'm going to send -- I'm going to
15 send you another document, if we can review it, and
16 that is what happened in the Georgia office. I don't
17 know if you know about this. I'm sure you know about
18 this, Max, but --

19 MR. McGUIRE: So, the interesting thing about
20 the US -- USB keys is that, in Pennsylvania, they
21 reported earlier this year that -- that similar USB
22 keys had gone missing --

23 MR. OTTO: Right.

24 MR. McGUIRE: -- from their voting centers.
25 So, Pennsylvania I believe uses Dominion; correct,

1 Joe?

2 MR. OTTO: Yes. Pennsylvania uses --

3 MR. McGUIRE: So --

4 MR. OTTO: -- it --

5 MR. McGUIRE: -- they --

6 MR. OTTO: -- Michigan uses it. All the
7 swing states --

8 MR. McGUIRE: They reported --

9 MR. OTTO: -- actually use it.

10 MR. McGUIRE: -- they reported that USB keys
11 had gone missing, and those are the -- for the -- to
12 control the tabulators so that they can choose ballot
13 codes to decide -- to basically decide how the
14 election will process on a computer system.

15 MR. OTTO: So, the -- the one I just sent you
16 is a article from Government Technology, so it's
17 govtech.com. And it says: Georgia officials -- and,
18 by the way, this is from -- and if you want to know a
19 date, this is from September 29th of 2020. And, if
20 you --

21 MR. McGUIRE: So, this year.

22 MR. OTTO: -- go down -- yeah. If you go
23 down in the article -- and again, this is in -- this
24 is in -- in --

25 MR. McGUIRE: Georgia.

1 MR. OTTO: -- Georgia, right? Another state
2 where there's a problem. And you go to: The issue
3 discovered last week during pre-election equipment
4 testing in Douglas and Richmond Counties, it occurred
5 when the second column of candidates didn't appear
6 because of a technical problem on how touchscreens
7 communicated with their underlying Android operating
8 system, said Eric Coomer of Dominion Voting Systems.
9 He said --

10 MR. McGUIRE: Yeah.

11 MR. OTTO: -- the problem only happens rarely
12 when you just made selections in a specific pattern.

13 Now, what you need to understand --

14 MR. McGUIRE: Yeah --

15 MR. OTTO: -- about (inaudible) --

16 MR. McGUIRE: -- all Republican.

17 MR. OTTO: Listen. What -- this is what you
18 need to know, guys, is when you start talking about
19 randomization models and patterns, everyone has -- are
20 creatures of habit. They know how people are going to
21 vote in -- in most instances. And, if you -- if we're
22 able to get access to the back end of this code, I
23 could show you. I personally know that I have a team
24 that could show you whether or not that -- that code
25 has been manipulated or if that code, in same

1 instance, same process within different states would
2 be applied fairly to each one, right? I could -- I
3 could actually uncover very easily, very quickly,
4 through the computer program, or through that code
5 whether or not there were --

6 MR. McGUIRE: The problem is it's
7 proprietary.

8 MR. OTTO: Which is, again --

9 MR. McGUIRE: It's proprietary --

10 MR. OTTO: -- the black box.

11 MR. McGUIRE: -- so they won't let you.

12 MR. OTTO: So -- so, we --

13 MR. McGUIRE: Yeah.

14 MR. OTTO: -- have to look at the fact that
15 Eric Coomer is 100 percent diabolically (sic) opposed
16 to Trump. He says that he actually wants Trump out of
17 office. He writes things like F the police, F the
18 USA. Puts these posts on his -- on his Facebook page,
19 right? He puts these posts out there, right? He's in
20 Georgia; he's in Colorado; he's in Pennsylvania, which
21 I'm about to show you; and he's in Arizona, right?

22 Now, if we go to that proprietary
23 information, it gets even worse, Max. So I put this
24 stuff up to you just so you have just information as
25 you start digging into this, and that's from the

1 patent office, so from just the images, patents,
2 you'll have ballots --

3 MR. MCGUIRE: So he has a ton of patents.

4 MR. OTTO: A -- a ton. But a ballot
5 adjudication and voting system, utilizing ballot
6 images.

7 So, one of the issues that we've had in
8 Arizona, which uses a Dominion system, right, is
9 imaging, like imaging issues. And it's called the --
10 Sharpie-gate, right? We've heard -- all heard about
11 Sharpie -- Sharpie-gate. And everybody's like, Ah,
12 come on; that can't happen.

13 MR. MCGUIRE: Yeah.

14 MR. OTTO: Folks, listen, smoking gun, if --
15 if it smells like crap, it looks like crap, you
16 probably shouldn't eat it; it probably is crap. But,
17 as you go through this, you start looking at the
18 things that he's actually invested in, where he has
19 it, who assigns it, who the inventors are. If you go
20 back through and start doing research on the bottom
21 people: James Hoover, James Bale (sic), Steven
22 Bennett, Eric Coomer, Sean Dean, Geneice Mathews,
23 Benjamin Rice, the information that you get from that
24 -- I'm not going to do the information for you. We
25 don't have time to in this podcast. But, as you do

1 that information and you start tracking them to
2 different election environments, you're talking about
3 owning patents, pushing it out to different
4 environments, having those different environments
5 actually then go out and get involved in elections,
6 and they're all based on the same proprietary
7 information of -- of -- they --

8 And, listen, you could solve this problem
9 very easily by just going to Blockchain. And I don't
10 want to get too far off of it, but you could literally
11 make it so that everyone knows, using Blockchain
12 technology, who they voted for. That information goes
13 --

14 MR. McGUIRE: Yeah.

15 MR. OTTO: -- back to them, and it's
16 unbelievably impossible to hack. It's impossible.
17 But they don't want that to happen. They don't want -
18 - they don't want that system of having an
19 impenetrable system. This system that they have is
20 massively flawed, massively flawed.

21 Now let's get into -- let's see. You took
22 that down.

23 MR. McGUIRE: Well, let -- let -- let's --
24 while -- while we -- before we get into this, give you
25 a chance to -- to put together what you want to come

1 next. This is a clip from, actually, a congressional
2 hearing where Representative Zoe Lofgren, who is a
3 Democrat, she is not a conservative, she is a Democrat
4 warning about Dominion Voting Systems and how
5 dangerous it would be to let them in to control the
6 election process in our country.

7 MR. OTTO: That's correct.

8 MR. McGUIRE: Go ahead and play cut alpha.

9 (Video played.)

10 REPRESENTATIVE LOFGREN: Many have concerns
11 about voting systems with remote access software, and
12 I think we want to make sure that companies no longer
13 sell voting machines that have network capabilities.
14 In 2019, according to a report in Motherboard, a group
15 of election security experts, they uncovered that
16 back-end election systems in at least 10 states were
17 connected to the internet despite one company's claim
18 that its systems were not.

19 We need to -- also to understand supply
20 chains. In December 2019, a study released by
21 Interos, a supply-chain monitoring company, showed
22 that one-fifth or 20 percent of the components in a
23 popular voting machine came from China-based
24 companies. Furthermore --

25 (Comment about the video.)

1 MR. OTTO: Well, well.

2 (Video continued.)

3 REPRESENTATIVE LOFGREN: -- close to two-
4 thirds or, actually, 59 percent of suppliers within
5 that machine's supply chain had locations in either
6 China or Russia.

7 I've also heard concerns about the ownership
8 and control of voting machine vendors. Public
9 Reporting indicates that all three of the major voting
10 system vendors represented here today are privately
11 held or are partially controlled by private equity
12 firms.

13 I believe it's in the public interest for
14 Congress to better understand who could financially
15 benefit from the administration of our elections.
16 Securing our elections should not be a partisan issue.
17 Election security is about upholding a democracy of,
18 by and for the people, the American people, be they
19 Republican, Democratic, third party, or no party at
20 all.

21 (End video.)

22 MR. McGUIRE: So, it's interesting that
23 that's what Democrats were saying just a couple of
24 months ago -- a couple of years ago. And I want to
25 put this up. Mr. Producer, put up image D, image

1 delta. This was actually from an investigation into
2 Dominion's Democracy system. And one of the biggest
3 problems that they came up with, as they were doing a
4 deep dive into it, was not just that the -- the code
5 might have been manipulated, but that the systems
6 actually had the ability to connect to the internet,
7 but the vendor claimed that it protected, by hardening
8 of data and IP address features. There's no --

9 MR. OTTO: That's --

10 MR. McGUIRE: -- such thing --

11 MR. OTTO: -- not impressive --

12 MR. McGUIRE: -- but the --

13 MR. OTTO: -- that's not true. That's not --
14 what he just --

15 MR. McGUIRE: That's what they --

16 MR. OTTO: -- said is --

17 MR. McGUIRE: -- claim.

18 MR. OTTO: -- absolutely false. That by
19 itself is false. It's false.

20 MR. McGUIRE: So --

21 MR. OTTO: Hardening --

22 MR. McGUIRE: -- it's --

23 MR. OTTO: -- of data --

24 MR. McGUIRE: -- not possible --

25 MR. OTTO: -- and IP address features, you

1 cannot do that.

2 MR. McGUIRE: You cannot connect something to
3 the internet and have it be completely foolproof. If
4 it's connected the internet, it can be hacked. Or, if
5 someone on the inside wanted to, it wouldn't be
6 hacking, it would just be a software update.

7 Mr. Producer, go ahead and put up my screen.

8 This is coming out of Michigan, in Lansing,
9 Antrim Vote Glitch. Remember, we hear about these
10 glitches in Michigan? Expert shares how county
11 mistakenly flipped from red to blue.

12 We looked at it, and there was a county,
13 Antrim County, where a Democrat had won, and it didn't
14 make any sense. It didn't -- it made sense to no one.
15 A Democrat had won it and it should have been the
16 Republican because everyone who voted said, Hey, we're
17 a pretty solid Republican area. How could it just
18 flip to Democrat?

19 And what happened was a failure to properly
20 update software was the reason for a computer glitch,
21 a glitch that caused massive errors in unofficial
22 election results reported from Antrim County. So, you
23 see that it was -- it was the -- the attempt to
24 upgrade it, to -- to basically upgrade the software
25 that sent it all into -- into basically glitchiness,

1 they claim glitches, and resulted in a complete flip
2 from red to blue.

3 Now, enough people said, Hey, this doesn't
4 look right, this doesn't sound right. We should go
5 back and audit this. And they determined that the
6 system was to blame. The system was what flipped it
7 from red to blue, and it should have stayed red.

8 So, after they had called the election, they
9 had to call up the Republican and say, Hey, actually,
10 you didn't lose by over 1,000, you actually won by a
11 few hundred. Congratulations.

12 So, if it -- it happened in a small county.
13 The only reason that they went back and -- and looked
14 at it was because enough people said, This doesn't
15 sound right. Let's just make sure. It doesn't make
16 sense that a solidly Republican area would just all of
17 a sudden flip blue. It just doesn't make sense.

18 So, if you're seeing that in that small area
19 of Michigan, and you know that other areas of Michigan
20 are using the same voting system, as we just covered,
21 connected to the internet, could it also have a weird
22 software update glitch? Who knows? You need a full
23 manual recount, and not just of the barcodes, as we
24 talked about earlier.

25 Mr. Producer, put up -- for everyone who's

1 just joining, put up image -- image F, foxtrot.

2 This is a picture of a Dominion ballot. You
3 see that little QR code? You can't just scan the QR
4 codes because if -- if someone has manipulated it in
5 that way to, no matter what, present a different
6 barcode, you can't just do that. You have to actually
7 read, because the only thing a voter could verify was
8 what they can read with their eyes in English, which
9 is what candidate they voted for. You can't just go
10 back and scan the ballots because that's potential
11 vulnerability of -- of -- because, in order to get
12 beyond the -- the basic check of, You voted, you
13 looked at the paper, that looks right, let's tabulate
14 it, the only way to get past that is to hide the data
15 in the QR code or the barcode, because it wouldn't
16 pass the smell test. Eventually, you get people
17 looking at the ballots and say, Wait a minute, I
18 didn't vote for Joe Biden, right? I -- I voted for
19 Donald Trump. You have -- the only way to get it out
20 there is either working the tabulating machine code or
21 to mess with the way the ballot looks in the QR code
22 or in the barcode. So you need a full manual recount,
23 not just with scanning the barcodes, but actually
24 reading what the names are on there and counting it
25 that way, because it -- it's just too ripe for fraud,

1 it's too open for abuse, and our -- our republic is
2 too important to leave it up to a company that has
3 already admitted that it's vulnerable.

4 MR. OTTO: It's not admitting it's
5 vulnerable, it's actually creating the vulnerability
6 so that it can actually be manipulated. And that's
7 what's happened here, Max. That's what happened here.
8 You have a guy that literally is a fanatic. He's on
9 calls. He's taking times in the middle of -- of an
10 election season to get on a call three weeks before an
11 election. Three weeks before the election he's
12 getting on the phone and he's saying very clearly
13 that, I have it handled. And he runs product strategy
14 and security.

15 MR. McGUIRE: Yeah.

16 MR. OTTO: We're not talking about someone
17 that is at a low level, that has an opportunity to
18 just -- he's in everywhere you look. If you go into
19 court cases in Pennsylvania, if you go to court cases
20 in Michigan, if you go to -- the person that's
21 actually out there selling it, he's selling into these
22 places, right? He's the one servicing these places.
23 He's going to conferences to meet with -- with county
24 clerks, right?

25 Interesting statistic -- I sent this to you

1 earlier, but interesting statistic -- and, by the way,
2 hit the share button, guys. This is actually
3 important stuff. If you don't think that --

4 MR. McGUIRE: Hit that share button --

5 MR. OTTO: -- that --

6 MR. McGUIRE: -- give us a --

7 MR. OTTO: -- if you don't --

8 MR. McGUIRE: -- thumb's up.

9 MR. OTTO: -- think this is relevant, I'm
10 going to build an entire dossier of all of this guy's
11 Facebook posts. He's going to have to answer for it.
12 How does an un-American guy, a guy that's completely
13 un-American, that wants to basically kill the
14 president, and that -- you can say whatever you want,
15 that -- that was the --

16 MR. McGUIRE: Right.

17 MR. OTTO: -- that was the reason behind the
18 post, that he wants to kill the president, is
19 responsible for the voting in this country. Just --

20 MR. McGUIRE: (Cross talk).

21 MR. OTTO: -- keep that in mind, guys. Keep
22 that in mind.

23 MR. McGUIRE: Yeah.

24 MR. OTTO: Max, you said smoking gun. I
25 don't need to see someone fire the gun. I don't need

1 to see someone -- the damage done by the gun. All's I
2 need to know is that the guy had the intent and the
3 ability to do it, and it's -- it's poison from the --

4 MR. McGUIRE: That's the --

5 MR. OTTO: -- it's -- it's --

6 MR. McGUIRE: -- problem.

7 MR. OTTO: -- fruit from the poison tree. It

8 --

9 No, it's not the problem.

10 MR. McGUIRE: That -- that's the problem
11 because it -- it's the same defense that Peter Strzok,
12 Lisa Page, all those goons in the deep state and the
13 FBI, DOJ --

14 MR. OTTO: Yeah.

15 MR. McGUIRE: -- same defense. Oh, yeah, we
16 admit that we're hopelessly biased, right? And we
17 admit that we have the ability to use that bias to
18 influence elections. We admit that. But they said,
19 Oh, but we didn't. And --

20 MR. OTTO: But --

21 MR. McGUIRE: -- the way --

22 MR. OTTO: No --

23 MR. McGUIRE: -- the investigations --

24 MR. OTTO: -- that's --

25 MR. McGUIRE: -- work --

1 MR. OTTO: -- that's --
2 MR. McGUIRE: -- was --
3 MR. OTTO: -- that's --
4 MR. McGUIRE: -- that they said, Absent that
5 smoking gun, they had to assume. That's what the
6 actual Inspector General said, that he is biased. He
7 said he wanted to use the bias to influence his work;
8 but there is no evidence that he acted in a biased
9 way. That's going to be his defense to all this,
10 that, yeah, he -- yeah, he -- he's helplessly biased,
11 he hates the president, but, like many other
12 professionals, he's going to say that he checked his
13 political persuasion at the door. That's his --
14 MR. OTTO: Did he --
15 MR. McGUIRE: -- that's his --
16 MR. OTTO: -- did --
17 MR. McGUIRE: -- claim.
18 MR. OTTO: From when? From when? So, then,
19 the smoking gun is that call that he was on with me,
20 right?
21 MR. McGUIRE: Yeah.
22 MR. OTTO: The smoking gun was that he
23 actually said that he was going to do that. So that's
24 a smoking gun. And I --
25 MR. McGUIRE: But we don't have --

1 MR. OTTO: -- I -- I guarantee --
2 MR. McGUIRE: -- a recording.
3 MR. OTTO: -- you -- it doesn't matter if I
4 don't --
5 MR. McGUIRE: It's --
6 MR. OTTO: -- have it --
7 MR. McGUIRE: -- foul.
8 MR. OTTO: -- recorded. How did -- how did I
9 even know, Max? How did I even know to put all this
10 stuff together? How? And, by -- and, by the way, I
11 was on a video --
12 MR. McGUIRE: I'm -- I'm --
13 MR. OTTO: -- three --
14 MR. McGUIRE: -- just playing --
15 MR. OTTO: -- weeks ago --
16 MR. McGUIRE: -- devil's advocate. I'm just
17 playing --
18 MR. OTTO: Listen --
19 MR. McGUIRE: -- advocate to what --
20 MR. OTTO: -- I was on a --
21 MR. McGUIRE: -- you all said.
22 MR. OTTO: -- I was on a -- I was on a call
23 three weeks ago -- or, excuse me, on a video three
24 weeks ago talking about the fact that I was going to
25 out ANTIFA journalists, and that I've infiltrated

1 ANTIFA. That -- that is a video that is actually out
2 there. It's already out there, right? So, it's not
3 like I just -- it just came up that, Oh, Joe's now
4 saying that he infiltrated ANTIFA. No. I did
5 infiltrate ANTIFA, and I'm still there, and I still
6 have people within the organization, and I'm still
7 being fed information, right?

8 But this is -- just the sheer amount of
9 information, the sheer amount of information that
10 we're actually dealing with here is too much to
11 ignore. It's too much to ignore.

12 MR. McGUIRE: Mr. Producer, put up my -- put
13 up image E, image echo. This is Kyle Becker. I
14 believe he's a reporter for Fox News, and he -- he
15 posted on social media calling into -- calling to
16 everyone's attention that it was actually NBC that
17 raised alarms about Dominion Voting Systems in early
18 2000 because they included modems in their tabulators
19 and scanners. So, not just in their -- in their
20 actual dial-up -- the dial-up machines we actually
21 vote, but in their tabulators and scanners. And the
22 reason they said you want to be able to connect to the
23 internet, so that the results can be quickly relayed
24 to the public.

25 Well, again, anything connected to the

1 internet can be hacked. And, if the whole purpose of
2 that is to make it faster, make the whole process
3 faster, why is it the 9th of -- of November and we
4 still don't have votes being sufficiently counted?
5 Why are they still counting, right? You -- you can't
6 say that we put this feature -- this isn't a bug, this
7 is a feature -- we can't say that we put this feature
8 in to make it faster and then say, Oh, well, these
9 things just take time. It -- for the first time ever,
10 we're not going to have a finished count a week after
11 the election. You --

12 MR. OTTO: Okay.

13 MR. McGUIRE: -- can't have it both ways.

14 MR. OTTO: So -- so, here's the -- I just
15 sent it to you from -- I sent you a bunch of them.
16 But I said the -- I don't know if we can actually put
17 up the Dominion Voting Systems employee profile --
18 profiles. But since they --

19 MR. McGUIRE: No, I can't.

20 MR. OTTO: -- actually -- since they've
21 actually -- that all this information is coming out,
22 since they've actually done that, Eric has taken his
23 picture off of many places, right? They've taken his
24 picture down, right? He has to answer for this stuff.
25 He has to answer for this stuff that he is interfering

1 with the American vote. He's interfering with the
2 election.

3 MR. McGUIRE: Yeah.

4 MR. OTTO: Go to the last one, which was the
5 -- that I just sent you. It's TheBlaze: Georgia
6 officials --

7 MR. McGUIRE: Yeah.

8 MR. OTTO: -- say --

9 MR. McGUIRE: It's up --

10 MR. OTTO: -- abnormal --

11 MR. McGUIRE: -- on the --

12 MR. OTTO: -- company --

13 MR. McGUIRE: -- screen --

14 MR. OTTO: -- updates --

15 MR. McGUIRE: -- up on my screen.

16 MR. OTTO: -- updates caused a glitch that
17 halted machine -- machine voting for hours in two
18 counties. And it says that is not something that they
19 don't ever do. That is something that they don't ever
20 do.

21 MR. McGUIRE: They don't --

22 MR. OTTO: So --

23 MR. McGUIRE: -- ever do.

24 MR. OTTO: -- so, if you actually go in here
25 and start reading, they admit it, the temporary --

1 okay.

2 MR. McGUIRE: Well, yeah, they're basically
3 saying, Temporary countywide outage caused --

4 MR. OTTO: Yeah.

5 MR. McGUIRE: -- voting machines to be
6 inoperable for several hours in Spalding County, but
7 officials were able to get the machines running by
8 10:00 a.m. During the time that they were trying to
9 fix the problem, officials had voters use paper
10 ballots instead.

11 So, those paper ballots that were -- that
12 were done in that hour --

13 MR. OTTO: Where are --

14 MR. McGUIRE: -- two-hour --

15 MR. OTTO: -- they?

16 MR. McGUIRE: -- period are probably the most
17 secure ballots in the country.

18 MR. OTTO: Right. But, if you look at the
19 bottom, they actually asked -- reached out to --
20 reached out to Dominion. Dominion had no -- they
21 didn't respond.

22 MR. McGUIRE: Yeah.

23 MR. OTTO: Both the counties using voting
24 machines purchased from Dominion Voting Systems
25 Corporation at the 2020 election was the first

1 statewide contest using the new system purchased by
2 Georgia for \$100 million in 2019.

3 MR. McGUIRE: And that's where we get into --

4 MR. OTTO: Yeah, that's one --

5 MR. McGUIRE: -- that's where we get into
6 coincidence territory --

7 MR. OTTO: That --

8 MR. McGUIRE: -- this idea that Georgia flips
9 to a different vendor, and all of a sudden it goes
10 blue for the first time.

11 MR. OTTO: Ever.

12 MR. McGUIRE: And it doesn't just go blue, it
13 goes blue in like the dead of night while we're all
14 sleeping.

15 MR. OTTO: Right. And Pennsylvania --

16 MR. McGUIRE: I mean, this --

17 MR. OTTO: -- the same thing --

18 MR. McGUIRE: -- (cross talk) --

19 MR. OTTO: -- I'm telling you.

20 MR. McGUIRE: -- but it doesn't pass the
21 smell test.

22 MR. OTTO: And -- and -- and they say that
23 that's not a smoking gun. Yes, it is a smoking gun.
24 It's probable cause. You have to show us the code.
25 You -- we don't just get to trust you. There's no

1 trust in an election. There's no trust. I don't have
2 any trust.

3 MR. McGUIRE: So, that's an interesting
4 debate. That's an interesting debate. And I think
5 it's one that, in this instance, can probably unite
6 conservatives and leftists. Leftists say the same
7 about drug companies, pharmaceutical companies that
8 develop drugs using government funding, right?

9 Dominion Voting Systems, whether they like it
10 or not, they're able to make -- do what they do
11 because they get huge payments from American states,
12 from the American federal government, right? From
13 counties, from towns. So, public funds go towards
14 Dominion Voting, as a vendor, fine, but the public
15 funds are what help them develop this stuff. It's not
16 a grant, so it isn't as solid of an argument as you'd
17 see in the pharmaceutical industry.

18 But what leftists have always said is that,
19 if a pharmaceutical company uses public grants or --
20 or public funds to help create a new drug, that drug
21 should at least, in part, belong to the public, and
22 the -- the companies shouldn't be able to say, Oh,
23 it's proprietary, right? It should immediately go
24 into a generic status because the public helped create
25 it. But, no, what pharmaceutical companies do is they

1 take public funds and then they patent it using the
2 public funds to do all the research.

3 So, with this, it's -- it's a similar
4 argument, not as -- as foolproof, but this idea that
5 Dominion Voting Systems would not exist without having
6 the public as a vendor, the public should have a right
7 to see the underlying code of what they both helped
8 developed (sic) and used to conduct their elections.
9 You can't say it's proprietary when the future of the
10 Republic is at stake. You just can't do it.

11 So, I wanted -- I wanted to show you this.
12 This was -- this was something that we talked -- I
13 talked about a little. I went online yesterday to
14 talk about some of the chain-of-custody problems in
15 ballots. And we're learning something from Milwaukee
16 now that's -- that's really, really concerning. I
17 want to play two clips, and we'll get back to this,
18 but I think it -- it also kind of falls in line with
19 it.

20 Let's play real quick cut B, cut bravo. This
21 is Milwaukee PD escorting -- escorting a woman. And
22 her name -- cut bravo. Do we have cut B?

23 PRODUCER: Um-hum.

24 MR. McGUIRE: It's Claire Woodall-Vogg.
25 She's being escorted with the -- the thumb drive that

1 she had just put in, presumably, a Dominion tabulator,
2 bringing it from that tabulator to the election
3 headquarters where it'll be added to the final vote.
4 This is in Milwaukee.

5 Let's go to cut C. You can see there, she
6 has a police guard. Let's go to cut C, cut Charlie.

7 This is -- she got into a police car, and --
8 and they drove her from one location to the other. So
9 she is under police protection the whole time.

10 You can go ahead and cut it.

11 We -- we showed this yesterday. Joe, would
12 you believe me if I told you that, during that time,
13 when she was going from A to B, after she had put the
14 thumb drive in the tabulator, collected the tally,
15 under police guard protection from A to B, somewhere
16 in there she lost the thumb drive?

17 MR. OTTO: You've got to be kidding me.

18 MR. MCGUIRE: Mr. Producer, put up my screen.

19 Now, this is still an allegation, but this is
20 a website, Wisconsin Right Now, Wisconsin Right Now.
21 They say that they have a source in Milwaukee County
22 law enforcement that tells them that, in that late-
23 night time period, right, between 2:00 and 4:00 a.m.,
24 that this woman lost the thumb drive with the total
25 tally of Milwaukee's absentee ballots. And that,

1 after frantically searching for it, police were going
2 to call it in, and she told police to stand down and
3 stay quiet. And then, after a -- a relatively short
4 search, but after a search, another staffer handed it
5 to her and said, Oh, I found it. Here you go.

6 So, it -- it was removed from that chain of
7 custody, under police guard, it was removed from the
8 chain of custody, given back to her. When it was put
9 in -- it was 169,000, roughly, mail-in votes. When
10 it's put in, that is right around the time that Joe
11 Biden flipped Michigan with a huge surge in absentee
12 ballots.

13 MR. OTTO: Yeah.

14 MR. McGUIRE: And it -- and, presumably, from
15 Milwaukee, right? So --

16 MR. OTTO: Listen --

17 MR. McGUIRE: -- you have --

18 MR. OTTO: -- there's somebody that --
19 there's somebody that says none of this is a smoking
20 gun (inaudible), literally zero. Here to say a
21 probable -- a probable guy on the phone calls, not
22 enough. They're guilty, probably. This is just not
23 enough. You're wrong. You're absolutely wrong. See,
24 I've been meeting with attorneys, I've been going
25 through this.

1 But here's what I'm going to say on this --
2 on this deal, right? I'm going to -- I'm going to say
3 this very clearly. There's -- there's more to be had.
4 I'm going to put it on a -- on a drive so you can
5 actually see it. I do have to mark out people's
6 names. Max is probably right, although the lawyers
7 didn't tell me to do that. But --

8 MR. MCGUIRE: You have to --

9 MR. OTTO: -- I'm going to --

10 MR. MCGUIRE: -- based on (cross talk) --

11 MR. OTTO: -- let you see --

12 MR. MCGUIRE: -- (inaudible) Facebook --

13 MR. OTTO: -- I'm going to let you see --

14 MR. MCGUIRE: -- will take us down.

15 MR. OTTO: -- I'm going to let you see all of
16 that, right? I'm going to let you see all of it.

17 You have -- it's not the one event that is a
18 smoking gun, it's the fact that this is the guy
19 responsible for most of the elections across the
20 United States. It is actually one of the largest
21 election companies in the country.

22 Now, we can also start stacking on variables
23 of organ -- excuse me, of communities that don't use
24 this. So, I use Colorado as an example. There are
25 two counties in Colorado that do not use Dominion

1 Voting Systems. Two. And the -- the person
2 responsible, the County Clerk inside of Douglas
3 County, Colorado, said, Ah, I can't use Dominion.
4 There's way too much bad stuff out there about them.
5 And, by the way, this is going back quite a bit. I
6 mean, this is inside of Colorado. Would you believe
7 that there was not one voting irregularity in Douglas
8 County in Colorado at all? Not one irregularity. I
9 mean, as far as if you want to look at -- at the
10 Benford law, if you want to look at -- if you want to
11 look at the tallying of the votes, if you want to look
12 at how the votes were actually received, how quickly
13 they were pushed back out. And none of it. None of
14 it. Not -- not one.

15 And the other county --

16 MR. McGUIRE: Yeah.

17 MR. OTTO: -- right, the same thing.

18 Now, we're going through and we're tabulating
19 information right now that we're getting from those.
20 No irregularities. Would you believe, Max, that every
21 other county in Colorado has massive irregularities?
22 Massive.

23 MR. McGUIRE: Yeah.

24 MR. OTTO: Massive.

25 MR. McGUIRE: It's all --

1 MR. OTTO: I'm talking --

2 MR. McGUIRE: -- (cross talk) irregularities.

3 MR. OTTO: -- I'm talking 70 percent, 130,
4 150 percent increases, right, where it goes from red
5 to blue.

6 MR. McGUIRE: And here's the --

7 MR. OTTO: I mean, it --

8 MR. McGUIRE: -- problem. Like you see this
9 in Milwaukee where they misplaced the thumb drive.
10 Those ballots were counted, they were tabulated, and
11 they put the results on a thumb drive, and then that
12 thumb drive disappeared from the chain of custody.

13 MR. OTTO: Right.

14 MR. McGUIRE: Under police guard. Under
15 police guard. She had to show it to the police
16 officer. He said, I have it. They escort her from
17 one building to another and it disappeared. So --

18 MR. OTTO: Right.

19 MR. McGUIRE: -- there's just so many
20 different parts. Yes, Dominion could have changed the
21 ballots. Dominion could have affected the tabulation.
22 But when you see the thumb drive go missing, right,
23 that's where you start -- you start thinking, okay,
24 well, you can change results on that thumb drive,
25 right? It's very --

1 MR. OTTO: Why didn't she --
2 MR. McGUIRE: -- easy.
3 MR. OTTO: -- let them call it in?
4 MR. McGUIRE: That's the other question: Why
5 --
6 MR. OTTO: Um-hum.
7 MR. McGUIRE: -- didn't she allegedly let
8 them call it in?
9 MR. OTTO: Why?
10 MR. McGUIRE: And when you see other things,
11 like you sent me this. We were talking about this
12 yesterday on the show.
13 Mr. Producer, put up my screen.
14 This woman in the basement in Philadelphia
15 just handling ballots, and no one really --
16 MR. OTTO: This is --
17 MR. McGUIRE: -- knows --
18 MR. OTTO: -- unbelievable.
19 MR. McGUIRE: -- why.
20 MR. OTTO: Can we -- can we play the --
21 MR. McGUIRE: We talked about this on the
22 show --
23 MR. OTTO: -- can we play the --
24 MR. McGUIRE: -- yesterday.
25 MR. OTTO: -- volume on this? Or are you

1 (cross talk)?

2 MR. McGUIRE: I -- I can't play the volume
3 because it's not my screen, but she's -- she's being
4 asked, Who are you? What are you doing with ballots
5 in the basement of the counting facility? And she's,
6 Oh, I'm just a volunteer. I don't -- I don't know.
7 Who is your supervisor? I don't know who my
8 supervisor is. Those ballots were taken out of the
9 chain of custody.

10 So, there's so much room for fraud. And we -
11 - we -- we keep going at little bits here and there.
12 It could be this, it could be this, it could be --

13 MR. OTTO: But --

14 MR. McGUIRE: -- this.

15 MR. OTTO: -- that is a smoking --

16 MR. McGUIRE: What's obvious --

17 MR. OTTO: -- gun.

18 MR. McGUIRE: -- is it's everything.

19 MR. OTTO: If -- if --

20 MR. McGUIRE: It's --

21 MR. OTTO: -- but the point is --

22 MR. McGUIRE: -- everything.

23 MR. OTTO: -- is that they've infiltrated it.
24 Just like the -- the Kristopher Jacks deal. They've
25 infiltrated every part of our election deal. They

1 want to control the United States with their -- their
2 wild rhetoric. I mean, these are evil people, right?
3 This guy, Eric Coomer, is inside the election deal and
4 represents nearly 40 states, people, 40 states across
5 the United States. Dominion works -- has 40 states.
6 Forty. Four-zero. And this is what --

7 MR. McGUIRE: Yeah.

8 MR. OTTO: -- this is what he thinks. This
9 is -- this is literally what he -- he talks about in
10 his spare time: killing the president, F the police,
11 right? A.C.A.B., right? And -- and -- and posting
12 the -- the ANTIFA manifesto.

13 Look, I -- I don't -- I don't know how clear
14 you can get. I don't know how clear you can get. I -
15 - I think the code has to be examined, 100 percent,
16 all of it. I think there has --

17 MR. McGUIRE: Challenge it.

18 MR. OTTO: -- to be a recount.

19 But -- but the --

20 MR. McGUIRE: Challenges have --

21 MR. OTTO: -- challenge --

22 MR. McGUIRE: -- a deadline.

23 MR. OTTO: Well, the -- the deadline is, is
24 that all of this information has to get into the hands
25 of -- it has to get into the hands of the people that

1 are in positions of power and authority.

2 By the way, the -- the votes have to be
3 certified by the legislators, right? They have to --

4 MR. McGUIRE: Yeah.

5 MR. OTTO: -- be.

6 MR. McGUIRE: So, it's not just -- here's the
7 other part of this, right? The challenges that -- the
8 Electoral College votes went on, I think it's December
9 15th, December 14th, right around there, mid December,
10 so that's the hard deadline, right? Different states
11 have laws on the books on when their election must be
12 certified. I don't think that we'll ever be able to
13 look at the code because that'll take a lawsuit. And
14 when -- when -- even if you get a -- a district judge,
15 a federal district judge to side with you, they're
16 going to appeal it, the district judge will stay his
17 motion till the appeals court gets it, then it goes to
18 the appeals court, you get a panel of three judges.
19 Maybe they side with you, but he says, No, I'm
20 appealing en banc. But it's okay, we're going to put
21 a stay on all our ruling. You go en banc, the full
22 appeals court. Maybe they rule for you, and he says,
23 No, I'm appealing to the Supreme Court. It goes all
24 the way to the Supreme Court. The question is, can
25 you get there in a month?

1 MR. OTTO: I think you --
2 MR. McGUIRE: And after --
3 MR. OTTO: -- to.
4 MR. McGUIRE: -- you get there --
5 MR. OTTO: I'd be -- you're talking --
6 MR. McGUIRE: -- after you --
7 MR. OTTO: -- about --
8 MR. McGUIRE: -- get there in a month, can --
9 MR. OTTO: -- you're talk --
10 MR. McGUIRE: -- you then parse through the
11 code in time?
12 MR. OTTO: I can. I certainly can.
13 MR. McGUIRE: Well --
14 MR. OTTO: I could -- I could run --
15 MR. McGUIRE: (Inaudible).
16 MR. OTTO: -- I could run an algorithm
17 against it and then run the code, and I could actually
18 get -- you give me 5,000 ballots, and I could run
19 basically what -- what is the equivalent of an AREMA
20 (ph) analysis, break it up into 10,000 pieces and make
21 sure it does the same thing every time. I could -- I
22 could find glitches in the code. And, if you gave me
23 access to those computers, I could tell you what the
24 history is, what the update --
25 MR. McGUIRE: I know, but --

1 MR. OTTO: -- history is, things like that.

2 MR. McGUIRE: The problem is that a lot of
3 these -- a lot of these states have laws on the books
4 that they must certify the election by "X" date. So,
5 if you haven't even gotten a ruling saying you can
6 look at the code by then, the way we win this I don't
7 think is getting into the code. That -- there are so
8 many proprietary like fights over that, over -- over
9 the actual property of a tech company. That is a much
10 bigger argument --

11 MR. OTTO: I am --

12 MR. McGUIRE: -- than --

13 MR. OTTO: -- a tech company.

14 MR. McGUIRE: -- just the election.

15 I know. I know. But you wouldn't let
16 someone into your code, right? You'd fight tooth and
17 nail to stop someone from getting into your code
18 because, if they got into your code and they shared
19 it, it would make the company worthless, right,
20 because other people would have it.

21 MR. OTTO: Right.

22 MR. McGUIRE: So, they're going to fight
23 tooth and nail. So, we -- the -- the object is not to
24 change the votes. If we can change the votes, great.
25 We have to make sure we change the votes. And people

1 keep saying, We have to find enough voter
2 irregularities or -- or --

3 MR. OTTO: We just did.

4 MR. McGUIRE: -- fraud to change --

5 MR. OTTO: How many --

6 MR. McGUIRE: -- the outcome.

7 MR. OTTO: -- how many more do you need?

8 MR. McGUIRE: You don't. You don't have to
9 do that. All you have to do is sew enough doubt in
10 the minds of state legislatures and Congress itself
11 that the results that they see on that paper before
12 them cannot be trusted, right?

13 The state legislature has the ultimate right,
14 per the Constitution, to certify slates of electors to
15 the Electoral College. If we cannot get the votes
16 kicked out, if we cannot, right, audit the code and
17 find the irregularities in time, because we're up
18 against a time crunch, we have to make sure that we
19 present a big enough argument that this just -- it
20 just -- there's too much smoke for it not to be
21 burning down, right? You -- you can't have this much
22 smoke and not have fire, and that I think is the best
23 fight.

24 We can -- we can fight in courts over -- over
25 whether someone is illegally allowed to vote, whether

1 they're dead, whether they lived in the state or not;
2 those are easy fights, right? Those are easy things
3 to decide. Going through the court system to get
4 access to proprietary programming code, that is a much
5 bigger fight. And even if -- even if you win, they
6 can stretch it out so long that, by the time you have
7 access to it, most of these states will have already
8 had to certify the elections. That's -- that's the
9 biggest challenge here.

10 And, yeah, it's obvious that the guy who is
11 running security at Dominion Voting Systems, it's
12 obvious that he is as left as it comes. He's --

13 MR. OTTO: He's not --

14 MR. McGUIRE: -- ANTIFA --

15 MR. OTTO: -- he's not --

16 MR. McGUIRE: -- as --

17 MR. OTTO: -- left.

18 MR. McGUIRE: -- it comes.

19 MR. OTTO: He -- he is advocating for the
20 killing of America. He's advocating for the killing
21 of the president. I mean, this is -- this is what
22 he's advocating for.

23 Look, I'm -- I'm putting up some more stuff.
24 I think that we -- you know, we have some time, so
25 let's -- let's put this stuff up too. I just sent you

1 another -- oop, wrong one. My fault. Here. Don't --
2 don't show that one.

3 MR. McGUIRE: I think we already put that one
4 up.

5 MR. OTTO: I know. Just keep going.

6 MR. McGUIRE: All right. That's fine.

7 MR. OTTO: This is your -- this is in your
8 area. This is in --

9 MR. McGUIRE: Put up --

10 MR. OTTO: -- 2017.

11 MR. McGUIRE: -- my screen.

12 Ah, Texas. The land of racist idiots and
13 misogynists. In two hours, I've heard what's wrong
14 with having a relationship with another powerful
15 country, Russia. I love Trump. God damn women just
16 don't know -- what? -- how are to listening. You
17 know, darlin', you're pretty. Wish I didn't have to
18 tip you. Them robots is coming.

19 So, that's a anti-Texas, anti-conservative
20 rant from Eric Coomer, the head of security, product
21 security, product development, whatever, at Dominion
22 Voting Systems. That's in 2017. Apparently he was in
23 Texas overhearing people at a bar, it sounds like.

24 Yeah.

25 MR. OTTO: Yes --

1 MR. MCGUIRE: No. He's a -- he's as anti-
2 Trump as they come. He's as anti-conservative as they
3 come. And, yeah, it's -- it's terrifying that you --
4 you know that there -- he is probably not the only
5 one, and that's --

6 MR. OTTO: No.

7 MR. MCGUIRE: -- you get into this, right?
8 He's probably not the only one to have access to do
9 this stuff. And, as I said, there's three other major
10 companies that handle electronic voting in the
11 country. Do you really think all -- everyone who
12 works there is on the up-and-up too? No, of course
13 not. Of course there's people out there who have
14 similar opinions to him. And are they willing to act
15 on that?

16 That's why electronic voting is -- it's super
17 convenient, it's great, but there -- there's so many
18 holes in it and so many pathways for fraud, for
19 malicious actions, for even bona fide glitches, right?
20 If you -- if you give you -- if you give me a paper
21 ballot and a pencil and I fill in the circles, there
22 is zero likelihood of a glitch. I -- I guess I could
23 like have a spasm and -- and do the wrong oval. Fine.
24 But the idea of someone hacking into my paper ballot,
25 it -- it's zill -- nilch (ph), right? Zilch. Zero.

1 No one can do it.

2 But, as you start introducing all of these
3 different voting machines, tabulators, the scanners,
4 and you say they all happen to have modems, and, oh,
5 yeah, we're going to upgrade the software on election
6 day, and you start seeing that they start going down
7 in pro-Trump areas, and you see that, oh, in the
8 middle of the night, oh, we found more ballots on a
9 thumb drive that went missing but we found it, don't
10 worry. Even though it left the chain of custody, I
11 promise that no one altered anything on it. It's
12 truth. Oh, and by the way, on that magical thumb
13 drive that went missing but we found it, there is like
14 100,000 extra Biden votes. Out of the 169,000 votes
15 on it, he got almost all of them. Oops, sorry, but no
16 reason to look into it.

17 I mean, there's too much smoke for there not
18 to be fire.

19 MR. OTTO: And that's the -- I guess that's
20 my point. But here's the guy -- look, before he -- he
21 can't sit here and say and stand up now and say, Oh, I
22 -- I'm a bipartisan guy. You -- he can't say that.
23 He can't -- while he's actually out there flying and -
24 - and setting up voting machines, and -- and selling
25 people in municipalities and stuff, and then having

1 conversations with ANTIFA and -- and printing out
2 their manifesto, he can't say that he's not biased.
3 He can't say that he --

4 MR. McGUIRE: No.

5 MR. OTTO: -- he isn't doing the things that
6 we're seeing him do. We can't -- he can't say it.
7 You can't.

8 Guys, listen. It -- it's impossible, it's
9 impossible to say that. It's impossible. Impossible.

10 MR. McGUIRE: Yeah.

11 MR. OTTO: I'm trying to bring you another
12 one here, if I can, if I can get it to you.

13 MR. McGUIRE: For once --

14 MR. OTTO: I have --

15 MR. McGUIRE: -- I (cross talk) --

16 MR. OTTO: -- I have 80 --

17 MR. McGUIRE: -- getting that together.

18 MR. OTTO: -- things -- I have 80, literally
19 80 different --

20 MR. McGUIRE: Well, a lot of it is -- is just
21 all the same story, different texts. It's -- it's
22 he's anti-Trump, right? He's anti-cop. He's anti-
23 conservative. He's pro-ANTIFA, right? This guy, he
24 did -- the ones we've shown already aren't the only
25 text message -- aren't the only Facebook posts that he

1 had, right?

2 Here's another one. Eric -- go ahead and put
3 up my screen. T -- T minus 15 minutes to show time,
4 folks. This was in the lead-up to the 2016 election.
5 Twenty-six (inaudible). Hashtag wide margins, hashtag
6 no recounts.

7 MR. OTTO: No recounts --

8 MR. McGUIRE: I mean --

9 MR. OTTO: -- people.

10 MR. McGUIRE: -- that --

11 MR. OTTO: No recounts.

12 MR. McGUIRE: -- is concerning. Why would
13 you, in charge of a Dominion voting system --

14 MR. OTTO: Why would you say no recounts?

15 MR. McGUIRE: -- why would you not -- why
16 would you not want recounts? If anything --

17 MR. OTTO: See, this is --

18 MR. McGUIRE: -- you'd want recounts to prove
19 our accurate your system was.

20 MR. OTTO: So -- so, this is my problem. My
21 problem is, is that it literally says, No recounts,
22 right? What's he saying now? No recounts, right?
23 What did they do in Georgia? They did an update in
24 the middle of an election, in the middle of an
25 election, and then his response was -- and, by the

1 way, he's the spokesperson for everything Dominion
2 Voting Systems. He is the spokesperson --

3 MR. McGUIRE: Well, he's not the --

4 MR. OTTO: -- he is.

5 MR. McGUIRE: -- official spokesperson, but
6 he is on the record a lot. They do have a
7 spokesperson that goes by a different name. That's
8 not his official title. Just buttoning up that and
9 make sure we don't get fact checked on that, right?
10 There's a lot of things we could get fact checked on -
11 -

12 MR. OTTO: Can't get fact checked --

13 MR. McGUIRE: -- (cross talk) --

14 MR. OTTO: -- on.

15 MR. McGUIRE: -- for that to -- yeah.

16 Put that -- put that up on the screen one
17 more time, Evan, because the person who Joe has --
18 yeah, sure, that's good enough. Hashtag wide margins,
19 ha, ha, ha, and then Eric Coomer says, From a
20 professional standpoint, it's my one and only hope for
21 tonight.

22 No. From a professional standpoint, it would
23 be that Dominion Voting Systems don't get hacked; that
24 they have accurate results, right? That -- that no
25 one calls them into question. Not that there are so

1 many votes cast for one side that they don't go back
2 and audit the -- audit the -- the votes, right? From
3 a professional standpoint, my one and only hope for
4 tonight is that the margin of victory is so big they
5 don't double check our work? What? That's what he's
6 saying.

7 MR. OTTO: Hundred percent.

8 MR. McGUIRE: I mean -- we can't -- we can't
9 put this one up because it has someone else's name in
10 it.

11 MR. OTTO: Which one?

12 MR. McGUIRE: The one you just sent me. We
13 can't put --

14 MR. OTTO: Well --

15 MR. McGUIRE: -- that up.

16 MR. OTTO: -- just scratch it out.

17 MR. McGUIRE: I -- that -- that's going to
18 take too long for me to do. We can't put that one up
19 because -- but it's basically him being -- being
20 pissed off about the election. His being really,
21 really pissed off about the election. It's --

22 MR. OTTO: Well --

23 MR. McGUIRE: -- saying --

24 MR. OTTO: -- let me tell you, Hillary --

25 MR. McGUIRE: -- if Hillary Rodham Clinton

1 had a penis, she would have won.

2 MR. OTTO: So, here's something else that you
3 should see. I mean, this is kind of for fun, I guess.
4 This is a -- a mugshot of -- of Eric Coomer.

5 Guys, if this doesn't concern you, though, I
6 don't know how to help you. If -- if this doesn't
7 seem -- if this doesn't make you say that you're vote
8 didn't count, you spent all that time going, your vote
9 didn't count. It didn't count at all.

10 MR. McGUIRE: Yeah. Now -- well, I -- we're
11 a little over for today, which is fine. We had a lot
12 to go through.

13 Oh, I'm not going to put that up.

14 MR. OTTO: Why not?

15 MR. McGUIRE: That's creepy. That's creepy.
16 Okay. Fine. Let's watch it.

17 MR. OTTO: Yeah.

18 MR. McGUIRE: This is -- this is creepy as
19 hell. That's -- that's creepy. That's going to give
20 me nightmares. That's going to be lots of nightmares.

21 So, before we end -- no, put back my screen -
22 - we have to talk about the affidavits that have now
23 been signed in states like Nevada, in states like
24 Michigan. This is an affidavit that was just signed
25 in Nevada. It has been blacked out because the guy is

1 in fear of reprisals. He is a legal resident of Clark
2 County. He's over the age of 18. He is a U.S.
3 citizen. All of that, yada, yada, yada. He is a poll
4 worker, and he was told by -- he names names, but it's
5 redacted. He names names, my team leader and two
6 other assistants to advise people who wanted to
7 register to vote and did not have the proper Nevada ID
8 that they could go out in the parking and make an
9 appointment with the DMV to get a Nevada ID, driver's
10 license, and then bring in proof of their appointment
11 confirmation, either a paper copy or show it on their
12 phone to us, and then they could be registered.

13 Think about what that means. In Nevada, you
14 have to have ID. You have to have ID. What he is
15 attesting in this sworn affidavit is he names names or
16 who told him to do this, saying that, even if they
17 don't have ID, send them into the parking lot and have
18 them sign up for an appointment to get an ID, and
19 that's good enough.

20 Well, no. If you show up to the appointment
21 and you don't have the requisite paperwork to prove
22 you are who you say you are, you won't get the ID,
23 right? Having an appointment for an ID is not the
24 same as having an ID. But, according to this
25 affidavit, he was -- the supervisor told them, in lieu

1 of a voter ID, accept an email receipt confirming that
2 you have, at a later date, an appointment to get an
3 ID. That is insane. That is absolute insanity. And
4 they were told that -- that, if there was no driver's
5 license, to take the DMV confirmation number and just
6 add two zeros at the end so that it would work. This
7 is insane. He says that every day of early voting
8 there was a Biden/Harris bus, tent or table in the
9 parking lot of that precinct --

10 MR. OTTO: Right.

11 MR. McGUIRE: -- and that they were handing
12 out food, drink, political memorabilia to voters.
13 They even had speakers, dancers, music, and other
14 festivities going on. This is where it gets really,
15 really screwy. Every day during my lunch breaks I
16 would walk laps in the parking lot and around the
17 polling place for exercise. At approximately 2:15
18 p.m. on either October 28th or 29th, as I walked the
19 parking lot of -- names the precinct -- I personally
20 witnessed two people handing multiple unopened mail-in
21 ballot envelopes to two other people, who then opened
22 and filled out the ballots against the side of the
23 Biden/Harris van. The same two people who marked the
24 ballots then put the marked ballots in official pink
25 and white envelopes. These individuals were not poll

1 workers. By my final walking lap, there were six --
2 there were five or six additional people who formed a
3 human wall, which moved as I walked by, apparently in
4 an attempt to block my view of the four people who
5 were opening envelopes, marking ballots, and placing
6 those ballots in pink and white return envelopes.
7 When the moving wall of people noticed me walking by,
8 they continued to block my view as I walked.

9 Think about that. This is a poll worker, not
10 only blowing the whistle that they were soliciting in
11 the parking lot, but saying that he witnessed, he
12 personally witnessed Biden/Harris campaign officials
13 filling out multiple ballots and stuffing them in
14 envelopes. And this is huge stuff, people. Huge,
15 huge stuff. That is an affidavit, and it's blacked
16 out so they we don't -- we don't ruin his life because
17 he'll get death threats and the like. That is the
18 first affidavit.

19 Then you have this affidavit. This is an
20 affidavit from Michigan. Let me zoom in. This is --
21 she admits -- she says her name right there, Jessy
22 Jacob, says that she is a worker for the City of
23 Detroit Elections Department for the 2020 election,
24 saying she processed ballot packages to be sent to
25 voters, along with 60 -- 70 to 80 other poll workers.

1 She was instructed by my supervisor to adjust the
2 mailing date of these absentee ballot packages to be
3 dated earlier than they were actually sent. The
4 supervisor was making announcements for all workers to
5 engage in this practice.

6 At a satellite location I processed voter
7 registrations and issued absentee ballots for people
8 to vote in person and at the location. I directly
9 observe -- observed on a daily basis City of Detroit
10 election workers and employees coaching and trying to
11 coach voters to vote for Joe Biden in the Democrat
12 Party. I witnessed these workers and employees
13 encouraging voters to do a straight Democrat ballot.
14 I witnessed these election workers and employees going
15 over to the voting booths with voters in order to
16 watch the vote and coach them for whom to vote.

17 During the last two weeks while working at
18 the satellite location, I was specifically instructed
19 by my supervisor not to ask for a driver's license or
20 any photo ID when a person was trying to vote. I
21 observed a large number of people who came into the
22 satellite location to vote in person, but they had
23 already applied for an absentee ballot. These people
24 were allowed to vote in person and were not required
25 to return the mailed absentee ballot or sign an

1 affidavit that the voter lost the mailed ballot.

2 I mean, she's going through these things,
3 these are crazy, crazy, crazy things. And that's a
4 sworn affidavit. That is sworn under oath, under
5 penalty of prosecution. And it keeps getting worse.

6 Richard Hopkins, Richard Hopkins, this is the
7 guy in Pennsylvania, the postal worker that --

8 MR. OTTO: Which --

9 MR. McGUIRE: -- (cross talk) --

10 MR. OTTO: -- by the way --

11 MR. McGUIRE: -- had originally.

12 MR. OTTO: -- now -- now has death threats
13 and literally is --

14 MR. McGUIRE: Yeah.

15 MR. OTTO: Yeah. I can't even imagine what's
16 going to happen after this one. I should get nice --
17 some nice phone calls. Let's see if I got any phone
18 calls coming up yet.

19 MR. McGUIRE: So --

20 MR. OTTO: Nope.

21 MR. McGUIRE: -- on November 5th, 2020,
22 that's after election day, after election day, as I
23 was preparing my mail for delivery, I saw Weisenbach
24 (ph) with Darrell Locke, one of the supervisors for
25 the Erie, Pennsylvania post office, having a

1 discussion. Weisenbach and Locke discussed how, on
2 November 4th, they had backdated the postmark on all
3 but one of the ballots collected on November 4th to
4 make it appear as though the ballots had instead --
5 the next page -- been collected on November 3rd. I
6 overheard Weisenbach tell Locke that they messed up
7 yesterday, November 4th, by accidentally postmarking
8 one ballot as having been collected on November 4th
9 when it -- when it had actually been collected.
10 Importantly, Weisenbach and his assistant had ordered
11 my coworkers and I to continue picking up ballots
12 after November 3rd.

13 Now, this is crazy. In Pennsylvania, that --
14 this is being litigated in the Supreme Court, the idea
15 that a ballot can come in after election day, and it's
16 crazy. But the rules of that stated Supreme Court
17 ruling said it had to be postmarked by election day.
18 So, whether or not they can count the ballots is being
19 litigated. But here you have the post -- Postmaster,
20 the postal workers conspiring to backdate. That's a
21 crime. It's a felony. It's a felony to falsely
22 postmark an envelope. This is voter fraud. This is -
23 - this is a big crime. So now they're basically
24 shoving all of them in just in case, just in case they
25 need the votes.

1 I mean, this is a big deal. These are three
2 affidavits that have just come down in the last 72
3 hours. The first two were today. So, this idea that
4 Donald Trump has no pathway, they are getting people
5 on the record. They are getting people to talk about
6 what they saw. The only question is can they find a
7 federal judge to rule on it and not just say --

8 MR. OTTO: Yeah.

9 MR. McGUIRE: -- that it's hearsay. That's
10 going to be the challenge.

11 MR. OTTO: So, while I'm actually on the
12 phone, I -- I got to verify some of this stuff, by the
13 way --

14 MR. McGUIRE: You can go ahead and take down
15 my screen.

16 MR. OTTO: So, I have some information about
17 authenticating the phone call, right? So, I do want
18 to be really clear. Telling everyone what information
19 I do and don't have that I can support stuff with, I'm
20 not going to do it here, right? I'm not going to do
21 it until I -- I know that it's secure, number one.

22 Number two, while I'm sitting here, people
23 are sending me more information about -- about him,
24 which is really kind of interesting, by itself. Look,
25 I think -- here -- here's what I think. I think that

1 individually, if we -- if we individually talk about
2 Eric Coomer, right, that's one thing. But I'm going
3 to -- I'm going to tell everyone on this call, if I
4 were you, I'd be calling your -- I'd be calling your
5 state rep where you are, right? We're going to put
6 something out. I'd be calling Dominion Voting
7 Systems, right? I don't think Eric Coomer should ever
8 work in elections again, ever. I don't think he can.
9 You can't have someone like that that is -- that has
10 any sort of integrity in what they're doing. I'm
11 sorry. It doesn't exist, right?

12 I -- I don't --

13 MR. MCGUIRE: Yeah.

14 MR. OTTO: -- I don't -- and, by the way, I
15 think that, if you -- if they have different states
16 served a -- a affidavit on Eric Coomer, I think if
17 they did what I'm about to do right now, that people
18 will come forward.

19 So, here's what I'm going to tell you. So,
20 we will -- we will set this up so that you can
21 actually send us something. So, let's just make it
22 easy. Eric@AdvocacyToAction, right? We'll put on
23 there, hey, Max?

24 MR. MCGUIRE: No. No. Put it on
25 Conservative Daily.

1 MR. OTTO: Okay. So, Eric@ -- well, I can't
2 do that one, can I? I guess I could. Info Eric --

3 MR. McGUIRE: Huh-uh. Just -- just -- just
4 send it -- send it to info@conserv- --

5 MR. OTTO: All right.

6 MR. McGUIRE: -- daily.com.

7 MR. OTTO: If you're a whistleblower, if you
8 work for Dominion Voting Systems, because, I mean,
9 again, you can actually go into -- it's something we
10 should actually look at. But, if you go into --
11 what's the -- what's the thing called? Help me, Max.
12 They do reviews for --

13 MR. McGUIRE: I don't know. Glass Door.

14 MR. OTTO: Glass Door. Did -- did you -- you
15 were you able to --

16 MR. McGUIRE: Well, I pulled that --

17 MR. OTTO: -- pull up his --

18 MR. McGUIRE: -- out of nowhere.

19 MR. OTTO: If you actually pull up Dominion -
20 - let me see if I can send it to you really quickly.
21 But, if you're a whistleblower and you have
22 information about Dominion Voting Systems, you're a
23 disgruntled employee, right, come forward. I'll -- I
24 mean, I -- I'd love to have the information. You can
25 send it to info@conservative-daily.com, right? Send

1 us the information. I promise you I will research
2 every bit of it.

3 But, if you actually go into Dominion Voting
4 Systems and actually look at the reviews, there's an
5 interesting review on Dominion Voting Systems, and let
6 me read it --

7 MR. McGUIRE: I don't want --

8 MR. OTTO: to you.

9 MR. McGUIRE: -- to put that up, but you can
10 read it.

11 MR. OTTO: It's February 12th, 2013: Current
12 employee, anonymous employee, pros: Believe they are
13 working for a good cause.

14 By the way, everyone that I've talked to that
15 knows anyone at Dominion Voting Systems said it's the
16 most left-leaning organization. It's worse than you'd
17 think, right? So, Diane Feinstein and her Chief of
18 Staff and everyone else is invested in -- in Dominion,
19 right?

20 Here's the con: Employees have nothing good
21 to say about the other employees, management or
22 company. Product flaws should be exposed, but I need
23 my job.

24 Advice: Start delivering a quality product,
25 not just selling the idea that you have a one.

1 At the very top, the title is Scamming
2 America. That's the title.

3 MR. McGUIRE: Yeah.

4 MR. OTTO: That's the title, February 12th,
5 2013. Don't take my word for it, right? That's the
6 title of the thing is Scamming America.

7 Yeah. Look, I want that person. I want the
8 person that wrote that, I want that person to come
9 forward and tell us what they're scamming people on.
10 It looks like they might have been on the tech side.
11 I want to know what they have to say. I want to know
12 what people have to say about Dominion. I know that
13 there are disgruntled employees. I know that there
14 are people that worked for that company that can come
15 forward and say, Yeah, Eric is a fanatic, right? Not
16 just all the stuff that he's writing. It's obvious
17 he's a fanatic, right? But here's a guy that is
18 actually posting an ANTIFA manifesto, that's on phone
19 calls.

20 MR. McGUIRE: Yeah.

21 MR. OTTO: And you say, Well, that's hearsay.
22 Okay. Maybe. Not the rest of it I have is. Not the
23 rest of it I have is, see. And -- and the problem
24 with the arrogance of the left is that they don't
25 think they can get caught, but somebody is going to

1 come forward and talk about this. Someone is.

2 MR. McGUIRE: Yeah. So, before we go, Mr.
3 Producer, put up my screen. This is just today coming
4 out. Philly, they are processing and duplicates --
5 duplicating ballots at 50 tables and they're only
6 letting a handful of Trump observers get in the room,
7 but they're not letting them get close enough to
8 watch. And the Philly lawyer sent notice at 1:00 a.m.
9 that it would start at 7:00 a.m. So, they sent it
10 while they were sleeping, hoping that no one would
11 check their email and no one would show up. And then,
12 when observers did show up, most of them were denied
13 access, I presume under COVID-19 restrictions.

14 So, we got to -- we got to get to the bottom
15 of the tech stuff, absolutely, right? But what we've
16 seen so far from this is Democrats threw the whole
17 kitchen sink at us, not just with their voter ballot
18 harvesting, with their over-registering people to
19 vote, with dead people voting, with the -- with the
20 tech stuff with Dominion, right? We see that. We see
21 the counting. The kicking of the observers out.
22 Losing the flash drive in -- in Milwaukee, allegedly,
23 and the finding it. And, oh, surprise, surprise,
24 there's -- Joe Biden how has a lead after that flash
25 drive is entered. Lots of really, really terrible

1 stuff.

2 So, we're going to stay on it. We're going
3 to keep investigating all of this. Went over today,
4 but that's okay. We had a lot to talk about. But,
5 what we need to all understand is that, we've said it
6 all along, there is too much smoke for there not to be
7 fire. And, if Joe Biden was to win legitimately, then
8 he won; but you cannot tell me, with everything we've
9 been reporting over the past week, you cannot tell me
10 that, given everything we've seen, everything we now
11 know, that this election was run legitimately, and
12 that the count you're seeing on CNN, on Fox News, on
13 all those news channels, you cannot say that that
14 count is accurate. Just like you cannot say that the
15 COVID count is accurate, right?

16 I was having a conversation yesterday about
17 this. As long as the guy -- there's a guy in the
18 COVID count who was struck by lightning while he was
19 roofing in Florida, which is true, as long as that
20 guy's in that count, I don't believe that count one
21 bit, right?

22 The same deal with this. As long as we know
23 that there's fraud in there, I don't believe the
24 count.

25 And, right before we go, Joe, you'll like

1 this. Put up my screen again.

2 This is what I predict the COVID graph will
3 look like. We saw the inverse for Joe Biden when he
4 did a little bit of boop, getting up ahead in Michigan
5 and Wisconsin. I predict that, in the coming days,
6 you're going to see the floor fall out of COVID-19,
7 and they're going to say that it's not that deadly.
8 They're already starting to say that. And the
9 interesting thing today, they announced -- Pfizer
10 announced that their vaccine is 90 percent effective,
11 they believe. I'm seeing reports that they had that
12 knowledge two weeks ago, and they put their samples on
13 cold -- in cold storage and wait until after the
14 election to tell the American people that.

15 So, there's lots of -- lots of different
16 lines in there that have to get solved, lots of
17 different frauds that have to get investigated. We're
18 going to keep doing it, and we'll keep publishing and
19 keep giving you guys a method to fight back, because
20 it's really important that we do so.

21 MR. OTTO: Yeah. So --

22 MR. McGUIRE: But, Joe, what's your final
23 word, Joe, as --

24 MR. OTTO: Well --

25 MR. McGUIRE: -- as we wrap up?

1 MR. OTTO: So, my -- my final word is, is
2 that I'm going to put up, just so you know, I'm going
3 to put up all of the information that I have. I'm
4 going to redact people's names. I'm going to put it
5 up there. I'm going to put the photos that I have up
6 there. I'm going to put up the fact that I know that
7 -- how many phones he has, right? And somebody said,
8 Can the FBI go in and audit his phone number -- or,
9 excuse me, his phones and his emails and all that
10 stuff. The answer is, yes, they can do that. Whether
11 or not the FBI will do that is -- is beyond me, right?
12 I got to believe --

13 MR. McGUIRE: No.

14 MR. OTTO: -- that the FBI is not dumb enough
15 that they're not monitoring ANTIFA lines. I can't
16 believe that I'm the smartest guy in the room when it
17 comes to this stuff. I can't. There has to be other
18 things that are going on that we're -- that we're not
19 privy to. So, I truly believe that it will prevail.

20 And again, as you said, Max, if Joe Biden
21 actually was elected by the people, right, and he
22 actually won the vote, then we have to concede.
23 That's the -- what the Republic is all about. But the
24 reality --

25 MR. McGUIRE: Yeah.

1 MR. OTTO: -- of it is we know that's not
2 what happened here. We know that it's been
3 manipulated. We know that the guy that actually runs
4 40 states, right? We know what the Benford law is,
5 right? We know that -- the fact that the
6 irregularities are through the roof. We know more 90-
7 year-olds voted for Biden than any other time in
8 history. Ninety-year-olds didn't vote for Biden.

9 MR. McGUIRE: Ninety-plus, yeah.

10 MR. OTTO: Ninety-nine percent of the -- of
11 the early (cross talk) --

12 MR. McGUIRE: Thirty-nine --

13 MR. OTTO: -- brother (ph) --

14 MR. McGUIRE: -- 39 people voted in
15 Pennsylvania that were alive during the Civil War.

16 MR. OTTO: Yeah. I mean, just that data,
17 that data is a smoking gun, because we don't know what
18 amount of variables there are to show the fraud,
19 right? So, you just have to stack enough of it and
20 go, Listen, we know that this is fraudulent, we know
21 this is fraudulent, we know this is fraudulent. These
22 three things collectively are the things that we
23 caught.

24 It typically is said that, for every one that
25 you catch, there's a thousand that you don't catch,

1 right? How much does that exponentially add to the
2 election total, right?

3 Guys --

4 MR. McGUIRE: Yeah.

5 MR. OTTO: -- this is not hard to win. We
6 have to stand up. There's a hundred million people --
7 excuse me -- there is 71 million people that voted for
8 Donald J. Trump for president, right? Those are real
9 ballots. That's not people out there cheating, those
10 are real ballots. So, now we have the left that's
11 completely cheating, and we have to stand up.

12 So, there's three things that we can do.
13 One, we can actually get involved. We can hit the
14 rallies, hit the protests, make sure that we have our
15 voice heard, and that we stand up, right? We -- we do
16 not surrender and we do not retreat. I'm sorry, but
17 that is what it's --

18 MR. McGUIRE: Yeah.

19 MR. OTTO: -- going to have to take. We're -
20 - we're going to have to do that.

21 Now, secondarily, right, we got to make sure
22 that this doesn't happen again. Dominion needs to be
23 fired from all 40 states. You're fired. You're out.
24 Get out, right? And we need to go back to a system
25 that actually allows for people to vote. Build a

1 system that's based on Blockchain because you can't
2 break it, guys, you can't. It 100 percent would make
3 sure that we don't ever have this problem again. But
4 they don't want to do that. They want to sell \$100
5 million --

6 MR. McGUIRE: Yeah.

7 MR. OTTO: -- hokey system to the people in -
8 - in -- in these different swing states. We did not
9 have this --

10 MR. McGUIRE: Yeah.

11 MR. OTTO: -- problem. But, if you look at
12 the states that Dominion got into, those area the
13 ones. Just recently, from 2016 to --

14 MR. McGUIRE: Yeah.

15 MR. OTTO: -- 2020, those are the swing
16 states --

17 MR. McGUIRE: Those are all the ones.

18 MR. OTTO: 100 percent. That's not -- that's
19 not hyperbole, that's --

20 MR. McGUIRE: Yeah.

21 MR. OTTO: -- real.

22 So, if we know that they got in before 2000 -
23 -

24 MR. McGUIRE: Hyperbole.

25 MR. OTTO: Hyperbole. Sorry. We know they

1 got in between 2016 and 2020, and in 2020 the
2 improbably happened, and a guy that literally can't
3 pronounce his name is staying in a basement that
4 couldn't get more than a dozen people to show up in
5 Jeeps --

6 MR. McGUIRE: Calling himself --

7 MR. OTTO: -- right --

8 MR. McGUIRE: -- a grandmother.

9 MR. OTTO: Calling himself a grandmother, and
10 -- and --

11 MR. McGUIRE: Did you --

12 MR. OTTO: -- and involved in --

13 MR. McGUIRE: -- did you read -- did you read
14 about the Jeeps?

15 MR. OTTO: No.

16 MR. McGUIRE: I want to go too off, but did
17 you see the Jeeps weren't actually for sale; they are
18 part of a fleet?

19 MR. OTTO: Oh, wow. Okay.

20 MR. McGUIRE: So, they -- they did an
21 analysis on the driver's licenses. They were not
22 listed for sale. They're part of a corporate fleet of
23 vehicles.

24 MR. OTTO: Yeah.

25 MR. McGUIRE: That's who -- that's what Joe

1 Biden used at his rally.

2 MR. OTTO: They're -- they're making --

3 MR. McGUIRE: They all happened to be brand
4 new Jeep Wranglers.

5 MR. OTTO: Listen, guys, they're creating a
6 mirage. They're creating a mirage, and we have to
7 stand up. We have to. I mean, if you -- if you
8 follow DC Draino on Twitter, some certain guys that I
9 like to follow very closely, there -- there's an
10 underbelly right now that the American people are not
11 going to stand for it. Joe Biden cannot be president
12 because he's not the legitimate president, right? And
13 that's -- that's really the thing.

14 Well, you got to show us proof. I just did.
15 And we've been showing to you for the last --

16 MR. McGUIRE: Yeah.

17 MR. OTTO: -- couple of days, right? If he
18 was the legitimate winner, then he should be sitting
19 as -- as the president, but he's not, and we all know
20 he's not. And we -- we have too many things that
21 happened at 1:00 in the morning, losing the ballots
22 and then all of a sudden having them uploaded as
23 47,000 --

24 MR. McGUIRE: Surprise.

25 MR. OTTO: That -- that by itself is enough.

1 That is a smoking gun. And then to tell the police,
2 no, no, don't turn it in. They had an obligation --

3 MR. McGUIRE: Yeah.

4 MR. OTTO: -- to turn it in, right?

5 MR. McGUIRE: Yeah.

6 MR. OTTO: The amount of crime that is
7 happening in this and corruption that's happening in
8 this is me -- is basically saying that we in the
9 United States live in a third world country. Are you
10 comfortable with --

11 MR. McGUIRE: Yeah.

12 MR. OTTO: -- that? And do you -- are you
13 willing to fight for the Republic? Are you willing to
14 fight for the integrity of this country? Because the
15 amount of distrust that we have right now for the
16 election process, based on what we've been able to
17 see, these people are evil. They're crooked. Do you
18 think they're going to actually make it easy for us to
19 get it? The -- it's imbedded in the code. I could
20 find it. Anybody could find it, right? But we got to
21 be --

22 MR. McGUIRE: Yeah.

23 MR. OTTO: -- willing -- and why would they
24 fight against it, by the way, if it was clear -- if it
25 was pure? If it was --

1 MR. McGUIRE: Yeah.

2 MR. OTTO: -- pure, get -- let us put 10,000
3 ballots through the machine in every place, let's do a
4 manual count, and let's make sure that we have the
5 right person that was elected by the people, by the
6 people's voice to be president of this country.

7 MR. McGUIRE: Yeah. So, before we go, Mr.
8 Producer, put on my screen one more time. I just want
9 to see -- show everyone where we've gone just in the
10 last week. We've gone from there was no fraud, to now
11 Democrats saying, Well, the fraud wasn't widespread.
12 Next they'll say, Well, the fraud didn't change
13 results.

14 MR. OTTO: Forty --

15 MR. McGUIRE: After that --

16 MR. OTTO: -- states, Max.

17 MR. McGUIRE: -- they'll say, Well, the fraud
18 didn't change the Electoral College. Joe Biden would
19 still be over 270. And, after that, they say, Okay,
20 you caught us; we cheated. We are now in step two out
21 of all five of those steps. So, that -- it's been a
22 week. And notice the narrative has changed. They
23 don't normal -- they don't say any more there was no
24 fraud. They -- now they're saying -- you listen to
25 narrative from Democrats and spineless Republicans,

1 they're saying that there was no widespread fraud.
2 That's the language. That's how the narrative has
3 changed.

4 Well, that's going to be it for this edition
5 of the podcast. If you like the podcast, please do
6 subscribe on YouTube. Please do hit the bell for
7 notifications. Please do like and follow our Facebook
8 page. Also, if you text Freedom to 89517, Freedom to
9 89517, you'll get a text alert when we go live,
10 because Facebook and YouTube play games with that.
11 Also, there's a link for you to join our newsletter in
12 the comment sections of both.

13 We also -- really big news -- we are now
14 number 81 on the Apple podcast political podcast
15 chart, number 81 in the United States. The 81st most
16 popular political podcast in America. So, please,
17 please, please do check out the link in the
18 description and make sure that you subscribe to our
19 Apple podcast, audio podcast, and also leave us a good
20 review.

21 MR. OTTO: And --

22 MR. McGUIRE: Very important. And you can
23 also find us -- go ahead, Joe.

24 MR. OTTO: And we will post -- we will post
25 everything that we have on Eric Coomer specifically

1 out there, right? And the outrage should start based
2 on Eric Coomer. How can this guy actually be
3 responsible for the elections in our country? How?
4 How can he be responsible for it? He has the power.
5 He's unhinged, right? And now we have all these
6 irregularities with his system. And it's how can we
7 allow that to happen? How can we allow people like
8 that to in -- to interfere with our elections? How
9 can he be allowed to stay in this organization, right?
10 That's the key. Eric Coomer is the key, and they need
11 to actually go grab his stuff. They need to basically
12 just raid everything that he has and raid Dominion,
13 right? And that -- I -- I expect Barr to do something
14 about it. Something has to be done, right? Now, I
15 think we'll get to the --

16 MR. McGUIRE: Right.

17 MR. OTTO: -- ultimate result where the
18 legislators will get enough information they're like,
19 Man, this -- this -- this election's not good. I
20 can't vote for -- I can't vote that this -- that I can
21 concede this election to Biden.

22 MR. McGUIRE: Yeah. Yeah. So, hopefully --
23 they sent 15 FBI agents to investigate the garage
24 pull-down in Bubba Wallace's NASCAR garage. You'd
25 think that maybe they'd send one or two to investigate

1 this.

2 So, in addition to Apple podcast, make sure
3 you go there, help us get into the top 75, into the
4 top 50. Really do need your help. Apple podcast,
5 link in the description. We're also on Google Play
6 Store if you have an Android. We're on Spotify. A
7 lot of people listen to us on Spotify these days.
8 We're on Pandora, iHeart Radio. Tune in and pod
9 (inaudible). So, check us out all there. There's
10 also a link to buy merch, help support the channel.
11 And, yes, we are on Parlor. Lots of people asking.
12 Big exodus happening right now. Follow us at Parlor -
13 - on Parlor @conservativedaily, all one word, and we
14 will be happy to follow you back.

15 So, again, that's going to be it for this
16 edition of the Conservative Daily Podcast. My name is
17 --

18 MR. OTTO: What --

19 MR. McGUIRE: -- Max McGuire --

20 MR. OTTO: And this is Joe Otto.

21 Max, one last thing.

22 MR. McGUIRE: All right. Last thing.

23 MR. OTTO: Right. Last thing on the last
24 thing.

25 MR. McGUIRE: This is the podcast that never

1 ends.

2 MR. OTTO: Yeah. So, hey, listen, but -- but
3 here's the thing, if people don't understand this, I
4 will be putting up all this stuff. We'll put it in a
5 place where you can actually get to it. And then, if
6 you can just share it, share it, share it, share it,
7 share it, share it, share it. Use it as a basis for
8 sharing.

9 MR. McGUIRE: We will include a link in the
10 audio description. We'll put it all up in a -- in the
11 drop box, whatever. We'll include a link in all of
12 the descriptions for this podcast as well.

13 So, again, my name is Max McGuire --

14 MR. OTTO: And this is Joe Otto.

15 MR. McGUIRE: -- and remember, as we've
16 talked about today, the fight to take back the country
17 clearly isn't over, but the only way we win is if we
18 all stand and fight together. (Music)
