Things I read at the time.

<https://www.thepostemail.com/2016/09/01/critical-flaws-in-election-security-confirmed-by-dominion-voting-executive/>

Much of the articles about Coomer and his history can be found in the document in section 2 .

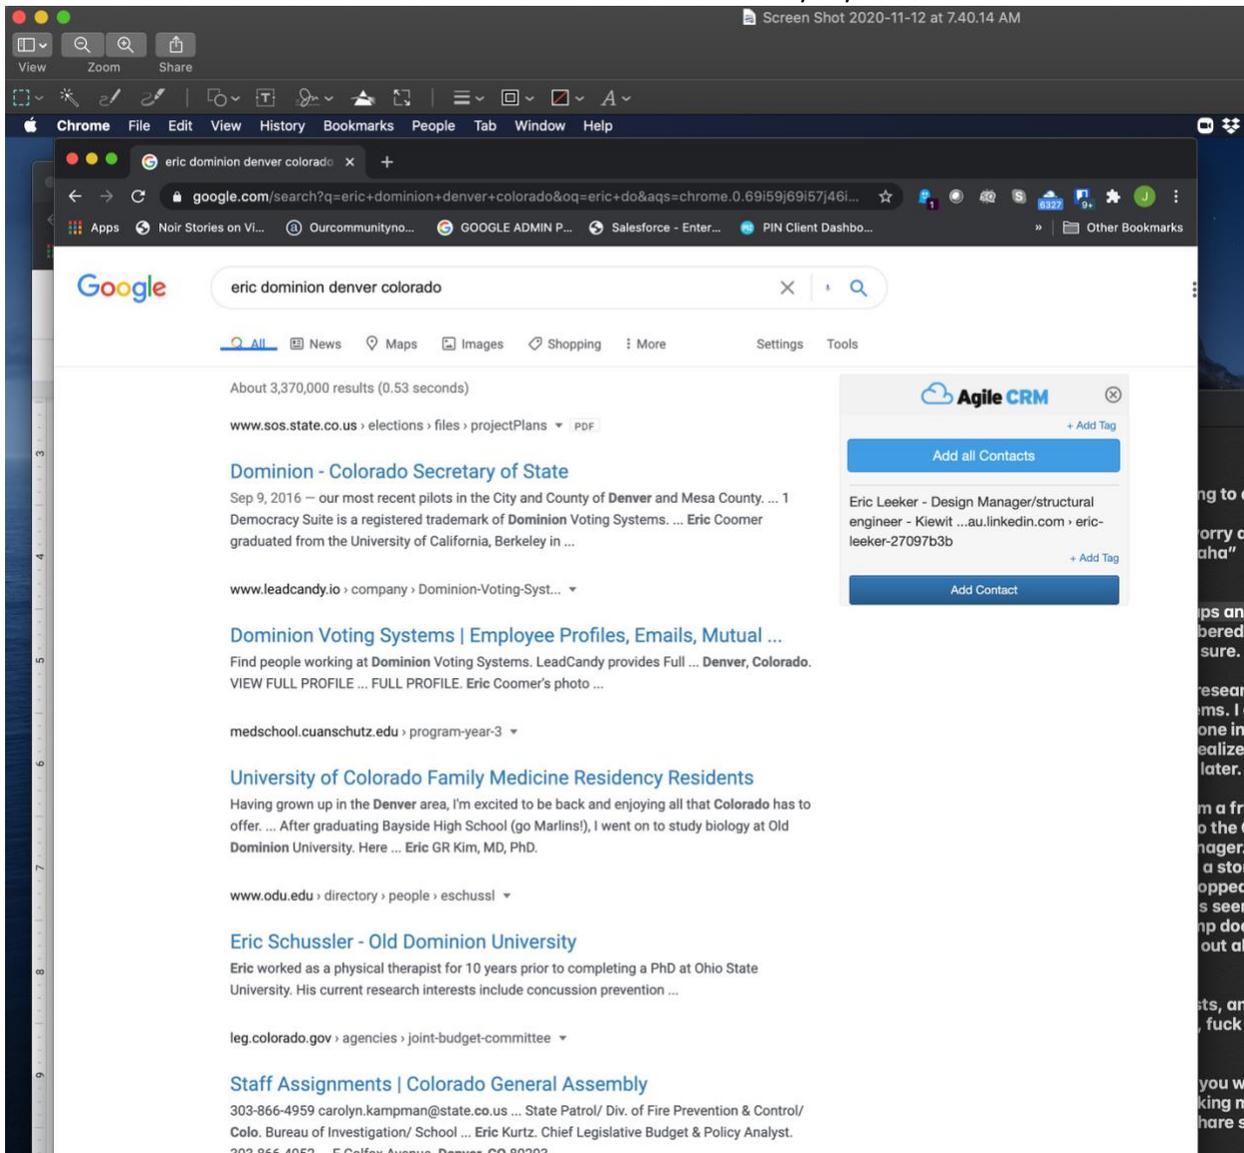

On October 15<sup>th</sup> 2020, long before the election and before there was any talk of Election Fraud, as I was not concentrating on that at all. I was busy working on FEC united and my role as CEO.

This is the news article that talked about the Antifa Journalist. Note this was before the Project Veritas piece on Kris Jacks, Our Revolution and the communist, antifa movement to take over the Democrat party.

This further proves I was not looking for Eric Coomer. Did not believe he was a credible threat and had no idea he was actually Antifa. Would never had thought a PhD would be a part of a terrorist organization. I was 100% sure he was the Eric Coomer on the videos. There are countless videos including a hacking conference that I watched parts of as well to be sure. I did not think about him again until I was up hunting on Novmber 6, 2020. I have two witnesses who were with me while I was up hunting that can attest that I became distraught as I dug into the other information realizing after that article what may have happened. I left early and went home on Saturday convinced that I had a serious decision to make. Do I or do I not come forward.
