The People of the State of Colorado v. MARK ALLEN REDWINE	
Order Regarding Expanded Media Coverage (C-4)	

Case Number: 2017CR343
 Division: 1 Courtroom:

The Durango Herald and four other media entities have requested this Court grant expanded media coverage of the defendant's advisement. The Court is aware that still and video photography exist that depicts the defendant in custody in Washington State and at the La Plata County airport. Such media has already been displayed to the public. If the Court denies the request for expanded media coverage, the Court anticipates the currently existing video and still photography will continue to be displayed in the media. Thus the Court does not find that current video or still photography of the defendant at his advisement will cause increased prejudicial effect to the defendant by tainting the potential jury pool. The Court grants the request for expanded media coverage and orders that the media comply with Rule 3, Chapter 38 of the Supreme Court Rules.
