Order Regarding Requests for Expanded Media Coverage (C-56)

The Durango Herald and Court TV Media, LLC, have filed separate requests for expanded media coverage in this case. The Court denies both requests for audio and visual recording as the Court will provide audio and video streaming of all proceedings in this case after jury selection is complete via Webex Events. The streamed content may be captured, re-streamed, or broadcast live or at a later date. See the Court's Amended Courtroom Decorum Order During Trial (C-55) issued on this date.

The Court grants the Durango Herald's request for a still photographer after jury selection is complete with the following requirements:

1. The photographer shall take still photographs of the trial each day the trial is in session except during jury selection;
2. No jurors' faces shall be captured by the still photography, and;
3. All photographs shall be made available to any media organization interested in this trial.
