ADMINISTRATIVE ORDER CONCERNING CRIMINAL CASE DOCUMENT SECURITY LEVELS	**COURT USE ONLY**
ADMINISTRATIVE ORDER 2019-10	

Documents accepted or uploaded into JPOD by the 8th Judicial District will default to the appropriate security level set by the State Court Administrator's Office to comply with CJD 05-01, except as follows:

An affidavit for arrest warrant shall remain suppressed until the defendant has been arrested and advised. This is consistent with the long-standing practice of the 8th Judicial District. Following advisement, the affidavit for arrest warrant will be available to the public subject to redaction.

None of the above prohibits a Judge or Magistrate from issuing a written or verbal order concerning a document security level. Any written or verbal order shall supersede the default policy.

Dated this 14th of January, 2019.

Stephen E. Howard
Chief Judge, Eighth Judicial District
