Hello all,

It's been approximately 2 months since the last request to provide any electronic correspondences on this case. Please do a quick search of your emails per the original keywords searches and upload them into the new folder [here](#) in the appropriate month (November, December, January) before next Tuesday, January 18. I will continue to provide these to the DA every 2 months.

In addition, we received a SDT from the defense yesterday and #1 and #2 pertain to the lab staff. This SDT is for electronic and handwritten communications. Please review any handwritten communications you may have pertaining to this case per the SDT along with the current search of email communications and upload them to the folder listed as handwritten notes. Lance is in communication with the AG's office on this matter.

If you have any questions or concerns, then please call me or come and talk to me if you're in the office. I will seek further guidance with any of your questions or concerns.

Hello all,

We recently received a copy of a court order in this case in which it reads:

would be an unreasonable burden on the prosecution. Therefore it is ordered that any electronic communications created or received by law enforcement officers related to this case must be disclosed to the defense if they are material to the prosecution of the case or if they contain any evidence that would be in any way favorable to the defense.

After discussion with the DDA on the case the other week and conversations with Ingrid, Lance and others, please do a search of your email with keywords "Morphew" "P20-1889" "Chaffee" and "2020-109" and determine if you have any emails retained for this case.

If you do, then please upload them as one .pdf to [here](#) by Tuesday, November 23.

We will be providing a consolidated document to the DDA in the case to determine what is material to the prosecution for this case.

I appreciate everyone's help with this matter. If you have any questions or concerns, then please let me know. I've attached the court order to this email as well for your convenience.
