Defendant, the Colorado Agriculture Preservation Association (“CAPA” or the “Association”), by and through its undersigned attorneys, hereby answers the complaint in this matter as follows. On November 18, 2015, the Board of Directors of CAPA passed a Resolution in favor of filing this answer to the complaint in this matter. CAPA is a Colorado nonprofit corporation that was founded in 2007 with the mission of sustaining the rural economic community by providing local stakeholders a voice in current basin issues, including the specifically outlined mission of preventing involuntary curtailment of wells in the Republican River Basin until all other viable alternatives are exhausted. CAPA also works to develop and support alternative solutions for Republican River Compact compliance. In furtherance of this goal and the general mission of the Association, CAPA supported the passage of Senate Bill 52

(2010), including being one of the organizations who provided testimony to the legislature on behalf of this bill. CAPA is made up of irrigators, concerned citizens, community organizations and local businesses. CAPA's members operate on over 300,000 acres and service over 50,000 customers on an annual basis. CAPA's membership is comprised of stakeholders in the Republican River Basin. Specifically, CAPA's current membership includes approximately 463 well owners who own approximately 1,472 wells in the Northern High Plains Designated Basin ("NHP" Basin). A list of CAPA's member well owners and the wells they own in the NHP Basin is attached as **Exhibit A**.

For the convenience of the Court, CAPA has repeated the titles and paragraph numbers used by Plaintiff in providing its Answer to the allegations set forth in the Complaint.

Plaintiff's introductory paragraph to the Complaint contains Plaintiff's characterization of its action and its requested relief and does not require a response. To the extent a response is required, the introductory paragraph is denied.

### **JURISDICTION**

1. CAPA admits that the water judge of the district courts of all counties situated entirely or partly within a water division has exclusive jurisdiction of water matters within the division. CAPA admits that water matters include only those matters which Title 37, Article 92 and any other law specify to be heard by the water judge of the district courts. Beyond these admissions, CAPA denies the Plaintiff's characterization of the water court's jurisdiction.
2. CAPA admits that the water court has jurisdiction over issues ancillary to water matters as held in *Crystal Lakes Water and Sewer Ass'n v. Blacklund*, 980 P.2d 534 (Colo. 1995). Beyond this admission, CAPA denies the Plaintiff's characterization of the holding in *Crystal Lakes*.
3. CAPA admits that at least some allegations contained in the Complaint may implicate water matters. However, CAPA denies that there has been an unlawful infringement upon any decreed water rights by Defendants or pursuant to Senate Bill 52 (2010) and/or the Colorado Ground Water Management Act.
4. CAPA admits that the Colorado Ground Water Commission ("Commission") has jurisdiction over designated ground water pursuant to the Colorado Ground Water Management Act, § 37-90-101 et. seq., C.R.S. To the extent paragraph 4 states Plaintiff's legal conclusions, no response is required. To the extent a response is required, CAPA denies the remaining allegations. CAPA denies the Plaintiff's allegation that it is not seeking to modify the boundaries of a designated ground water basin in this action to the extent the relief requested by the Complaint may aid the Plaintiff in seeking to modify the boundaries of a designated ground

water basin. CAPA admits that, on the face of the complaint, the Plaintiff is not requesting that the Water Court modify the boundaries of a designated water basin in this action.

### **PARTIES**

5. CAPA is without knowledge or information sufficient to form a belief as to the truth of the allegations contained in paragraph 5 and therefore denies the same.

To the extent a response is required, CAPA denies the remaining allegations.

7. CAPA states that section 37-80-102(1)(a), C.R.S., speaks for itself and no response is required. To the extent a response is required, CAPA denies Plaintiff's legal conclusions and denies the allegation that the State Engineer does not have or utilize discretion in administering and distributing waters of the State of Colorado or in complying with interstate compact obligations.

9. CAPA states that section 37-92-202, C.R.S., speaks for itself and no response is required. CAPA states that "Colorado Parks and Wildlife" is a commonly used reference for the Colorado Division of Parks and Wildlife (hereinafter "CPW"), a division within the Colorado Department of Natural Resources, and administers and manages matters pertaining to Colorado parks, fish and wildlife resources. In further response to paragraph 10, CAPA is without knowledge or information sufficient to form a belief as to the truth of the allegations that CPW administers or manages Bonny Reservoir and therefore denies the same.
