CHAPTER 36 UNIFORM LOCAL RULES FOR ALL STATE  
WATER COURT DIVISIONS

Rules 2, 3, 6, 11

APPENDIX 1 TO CHAPTER 36

**Rule 1. [NO CHANGE]**

**Rule 2. Filing and Service Procedure**

(a) [NO CHANGE]

(b) An applicant shall file and serve upon all parties at least ~~15~~ 21 days prior to hearing on any application before the water judge, a proposed order that sets forth any necessary findings, terms or conditions that the applicant reasonably believes the court should incorporate into the decree.

**Rule 3. Applications for Water Rights**

(a) [NO CHANGE]

(b) (1) More than one water right, claim or structure may be incorporated in any one application under one caption, provided that the required information is given for each water right, claim, or structure, ~~and that each has the same ownership.~~

(2) Persons alone or in concert may file applications for approval of plans for augmentation, including water exchange projects, and subsequent changes thereto.

(3) In applications for determinations of rights to groundwater described in C.R.S. § 37-90-137(4):

(A) If the applicant claims consent of the owner(s) of the overlying land as the basis for such a determination, the application must include one or more of the following documents as applicable:

i) If the basis for such consent is C.R.S. § 37-90-137(4)(b)(II)(A), the application must include (1) recorded copies of the written consent from the owner(s) of the overlying land to the applicant, which consent includes a legal description of the land and identification of the aquifers for which consent has been given, and (2) an instrument evidencing ownership of such land by such consenting owner(s) at the time such consent was granted.

ii) If the basis for such consent is C.R.S. § 37-90-137(4)(b)(II)(C), the application must include a certified copy of (1) the ordinance or resolution described in C.R.S. § 37-90-137(8) that incorporates groundwater, and (2) the part of the detailed map described in C.R.S. § 37-90-137(8) that shows the land area as to which consent is deemed to have been given.

(B) Two or more overlying land owners may file a joint application for determinations or changes of rights to such groundwater to be withdrawn through a “well field,” provided that the application must contain sufficient information to demonstrate that lands subject to the application meet the requirements of a “well field” as defined in the “rules and regulations applying to applications for well permits to withdraw groundwater pursuant to section 37-90-137(4), C.R.S.” 2 C.C.R. 402-7. Such joint application may include only claims for determinations or changes of rights to groundwater described in C.R.S. § 37-90-137(4) and plans for augmentation (with or without exchanges) related thereto.

(4) Nothing contained in this rule 3(b) shall prevent the consolidation or bifurcation of applications or portions thereof under other applicable rules or law, or affect or discourage applications involving a single applicant or single water right, claim or structure.

(c) Where more than one water right was conditionally decreed under one case number, each water right so decreed may, but need not be, incorporated again in ~~an~~ a single application for a finding of reasonable diligence or to make absolute; regardless of whether such rights remain in common ownership; however, such an application shall not be combined with any other case or application except by leave of court and the owner of each such right shall be an applicant in such application.

**Rule 6. Referral to Referee, Case Management, Rulings, and Decrees**

(a) [NO CHANGE]

(b) [NO CHANGE]

(c) [NO CHANGE]

(d) [NO CHANGE]

(e) To promote the just, speedy, and cost efficient disposition of water court cases, the goals of the referee, as contemplated by C.R.S. § 37-92-303(1), shall include a ruling on each unopposed application within ~~sixty~~ 60 days after the last day on which statements of opposition may be filed, and all other applications as promptly as possible. In pursuit of this goal, the referee shall initiate consultation with the division engineer in every case promptly after the last day for filing statements of opposition. The division engineer's written report on the consultation is due within ~~thirty~~ 30 days of the date the referee initiates consultation in accordance with C.R.S. § 37-92-302(4), except that for applications that require construction of a well, the division engineer's written report is due within ~~four~~ 4 months after the filing of the application in accordance with C.R.S. § 37-92-302(2)(a). Upon request, the referee may extend the time for filing the division engineer's written report. The division engineer may submit additional written reports upon receipt of new information and shall provide them to the referee and all parties. The referee shall not enter a ruling on applications for determination of rights to groundwater from wells described in C.R.S. § 37-90-137(4) until the state engineer's office has had the opportunity to issue a determination of facts concerning the application in accordance with C.R.S. § 37-92-302(2)(a). The referee and the division engineer may confer and jointly agree to forego consultation in a particular case because it is not needed; and, if so, the referee shall enter a minute order as provided in section (o) of this Rule 6.

(f) For good cause, upon agreement of the parties, or sua sponte, the referee may extend the time for ruling on the application beyond ~~sixty~~ 60 days after the last day on which statements of opposition may be filed but not to exceed a total of ~~one~~ 1 year following the deadline for filing statements of opposition, except that the referee may extend the time for entering a ruling to a specified date that is not more than ~~six months~~ 182 days after the expiration of the one year period, upon finding that there is a substantial likelihood that the remaining issues in the case can be resolved, without trial before the water judge, in front of the referee.

(g) [NO CHANGE]

(h) For all applications in which statements of opposition are filed, the attorney for the applicant, or the referee if the applicant is not represented by counsel, shall set a status conference with the referee and all parties. The status conference shall occur within ~~sixty~~ 63 days after the deadline for filing of statements of opposition, unless the deadline is extended by the referee for good cause. The status conference may be conducted in person or by telephone. All parties must attend the status conference unless excused by the referee. The referee shall advise the division engineer of the status conference and invite or require the division engineer's participation. To assist discussion at the status

conference, applicants are encouraged to prepare and circulate a proposed ruling and proposed decree to the referee and the parties in advance of the conference.

(i) [NO CHANGE]

(j) [NO CHANGE]

(k) [NO CHANGE]

(l) Regardless of whether any expert is involved in the proceedings before the referee, the referee shall not be bound by the opinions and report of the expert, may make investigations without conducting a formal hearing, including site visits, and may enter a ruling supported by the facts and the law. The case management plan shall contain a listing of the disputed issues to the extent known, the additional information needed to assist in resolution of the disputed issues, additional investigations needed to assist in resolving the disputed issues, an estimate of the time required to complete the tasks, the time for filing a proposed ruling and proposed decree, the time for opposers to file comments on the proposed ruling and proposed decree, the time for the applicant to file status reports, and a schedule for further proceedings. The referee may make such interim rulings, including scheduling additional status conferences and allowing amendments to the case management plan, as will facilitate prompt resolution of the application and issuance of a proposed ruling and proposed decree. The proceedings before the referee shall be completed and the proposed ruling and proposed decree issued no later than ~~one~~ 1 year following the deadline for filing of statements of opposition, except that the referee may extend the time as specified in subsection (f) above.

(m) [NO CHANGE]

(n) [NO CHANGE]

(o) [NO CHANGE]

(p) The referee shall have the authority to dismiss for failure to prosecute applications of parties who fail to comply with the requirements of the Water Court Rules or any case management plan, and to dismiss statements of opposition of parties who fail to comply with the requirements of the water court rules or any case management plan. Such dismissal may be protested to the water judge by any party within ~~twenty~~ 21 days ~~of receipt~~ from the date of the order of dismissal.

  - (II) An executable electronic version of any computational model, including all input and output files, relied upon by the expert in forming his or her opinions. The court may require the party to whom this information is disclosed to pay the reasonable cost to convert the data from the electronic format in which it is maintained in the expert's normal course of business to a format that can be used by the expert for the opposing party(ies).

(III) The content of the meetings of the experts and the written statement prepared pursuant to Water Court Rule 11(b)(5)(D)(II) shall be considered as conduct or statements made in compromise negotiations within the ambit of CRE 408. For this reason, notes taken by the experts or other records of the discussion during these meetings shall not be discoverable, and none of the content of the meetings of the experts or the written statement prepared shall be admissible at trial. The meetings of the experts shall not include the attorneys for the parties or the parties themselves, unless they are the designated experts(s).

(E) **Declaration By Expert.** Expert reports, disclosures, and opinions are rendered to the water court under professional standards of conduct and duty to the court. No person, including a party's attorney, shall instruct an expert to alter an expert's report, disclosures, or opinion. This does not preclude suggestions regarding the factual basis, accuracy, clarity, or understandability of the report, disclosure, or opinion, or proofreading or other editorial corrections, or an attorney communication of legal opinion to the expert of the attorney's client. The expert shall not include anything in his or her expert report, disclosure, or opinion that has been suggested by any other person, including the attorney for the expert's client, without forming his or her own independent judgment about the correctness, accuracy, and validity of the suggested matter. In circumstances where, as a result of identification of witnesses and documents within the time frame for such identification set forth in this Presumptive Case Management Order but with insufficient time to allow responsive discovery or supplementation by an opposing party, then modification of this Presumptive Case Management Order shall be freely granted.

A motion for a Modified Case Management Order and one form of the proposed Order shall be filed no later than ~~75~~ 77 days after the case is at issue. To the extent possible, counsel and any unrepresented parties shall agree to the contents of the Proposed Modified Case Management Order but any matter upon which all parties cannot agree shall be designated as "disputed" in the Proposed Order. The proposed Order shall contain specific alternate provisions upon which agreement could not be reached and shall be supported by specific showing of good cause for each modification sought including, where applicable, the grounds for good cause pursuant to C.R.C.P. 26(b)(2). Such motion need only set forth the proposed provisions which would be changed from the Presumptive Case Management Order set forth in section (b) of this Rule. The motion for a Modified Case Management Order shall be signed by lead counsel and any unrepresented parties, or shall contain a statement as to why it is not so signed.

(3) **Court Ordered Modified Case Management Order.** The water court may order implementation of a Modified Case Management Order if the Court determines that the Presumptive Case Management Order is not appropriate for the specific case.
