

List of Approved Providers

The following is a list of providers pre-approved by the Office of Language Access as sponsors of approved courses for continuing education. Interpreters may attend events sponsored by these providers and consequently receive continuing education credit without requesting prior approval. However, a CEAA# request form will need to be turned in prior to the end of the current compliance period. This form and the certificate of attendance will form part of the required documents to present at the end of every two-year compliance period.

Providers

- Colorado Judicial Department Office of Language Access (OLA)
