With the exception of leave taken to care for an injured military service member, the maximum combined total time allowed for FML is 12 work-weeks in an event year basis, except in certain circumstances where both spouses work for the Office. A total of 26 work-weeks of leave (including any other approved FML in a single 12-month period) are available to care for an

injured or ill family member serving in the Armed Forces, as provided under this rule.

The Director who works a 1.0 FTE is eligible for up to 480 hours of family/medical or active duty family leave per fiscal year. Military caregiver leave is a one-time-period of up to 1040 hours in a single 12-month block, counted from the date the leave begins. The Director who works less than a 1.0 FTE is eligible for a prorated amount of leave based on the regular appointment or the number of work hours in the preceding 12 months. Any extension of leave beyond the amount entitled to is not FML and is treated as any other type of paid or unpaid leave.

FML is granted to an eligible Director for:

- Inability of the Director to perform the functions of his/her position due to a serious health condition;
- Attendance at the birth of the Director's own child;
- Bonding time with the Director's child, if within 12 months after birth;
- Placement of a child with the Director for adoption or foster care, if within 12 months after date of placement;
- Serious health condition of the Director's child, including adult children not living in the employee's home, spouse, domestic partner, parent, including parents not living in the employee's home, OR the serious health condition of a person living in the Director's household for whom the Director is the primary caregiver, if such leave is medically necessary for the care of that person, child, spouse or parent or to assist in their recovery;
- Qualifying exigency due to a spouse, child, or parent being on or being called to active duty in the Armed Forces, including the National Guard and Reserves for deployment to a foreign county in support of a contingency operation.
- Care of Director's spouse, domestic partner, child, parent or next of kin who is a member of the Armed Service, including the National Guard and Reserves or covered veteran within five years of service, with a serious injury or illness incurred in the line of duty while on active duty or which existed before the beginning of the service member's active duty and was aggravated by service in the line of duty while on active duty. A covered veteran is one

who has been discharged or released under conditions other than “dishonorable” within five years of the day the employee first takes leave for the individual's care.

Miscellaneous FML Provisions. Paid time off and extended sick leave will accrue during periods of unpaid family or medical leave. Holidays are granted during unpaid family or medical leave.

Request for Leave. The Director shall inform the Chair of the Commission of the need for leave, and such leave, unlike other leave must be approved by the full Commission. If the necessity for the leave is foreseeable, the Director must notify the Commission of the request for leave 30 days in advance, or as soon as practicable before the leave is to commence. If the leave is unforeseeable, the Director should give notice to the Commission of the need for leave as soon as practicable under the circumstances, normally within one or two working days.

Intermittent Leave/Reduced Work Schedule. In limited circumstances as described below, the Director who is eligible for family or medical leave may be permitted to work a reduced schedule per workweek or hours per day or may take intermittent leave of separate blocks of time rather than one continuous period of time.

In cases of a serious health condition of the Director or a family member, such leave will be permitted only in circumstances when it is medically necessary. Appropriate medical certification will be required.

Where a reduced work schedule or intermittent leave is foreseeable based on planned medical treatment, the Commission reserves the right to transfer the Director temporarily to another position with equivalent pay and benefits that better accommodates the Director's recurring periods of leave.

In other cases in which Director is eligible for family and medical leave, such as the disability period following the birth of a child, and child care, adoption or placement of a child, the Director may take intermittent leave or reduced work schedule only if Commission agrees. The Commission may review the individual circumstances involved in considering such requests and may take into account the Director's length of service, number of requests, duties, workload and employee's job performance in making such decisions.

Any leave granted, based on a reduced work schedule or intermittent leave, will be treated in the same manner as other absences under the family or medical leave.

Return from Family or Medical Leave. The Director returning from leave will be reinstated to the same or an equivalent position. An equivalent position is one having virtually identical pay, benefits and working conditions and involving the same or substantially similar duties and responsibilities.

A completed and signed Fitness to Return to Work form is required to verify an Director's ability to return to work following any hospitalization, or absence of more than three days due to the employee's serious health condition as defined by this section.

The Director shall provide proper medical certification, including additional medical certificates and fitness-to-return certificates. If the Director does not provide the required medical certificates, the Family or Medical Leave request may be denied.

4.16. WORKERS' COMPENSATION

It is the responsibility of every employee to observe safe practices at all times. The Office employees must bring unsafe working conditions, practices or procedures to the attention of the Director, who shall correct safety hazards in a timely fashion. Violation of state, Office, or other official safety standards is cause for disciplinary action.

The Director is automatically covered under the Colorado Workers' Compensation Act for injuries sustained in the course of their employment. If one is injured seriously enough to cause an individual to miss work because of the injury, a portion of the Director's lost time, medical, and rehabilitation expenses may be paid for by this insurance. The Office utilizes the Colorado Judicial Department's Human Resources Division for administration of the state's Workers' Compensation program.

It is extremely important that the Director or the Office employee report all incidents in a timely manner. In all cases of on-the-job injury, the individual must notify the Commission (and the State Judicial Department's Human Resources Division) in writing of the job injury within four days of the injury. Also, if the Director contributes to the cause of the injury or illness, or if it determined that the injury was due to willful misconduct or negligence on the part of the individual, the benefits may be reduced or denied. All medical treatment shall be authorized and provided by a designated medical provider in order to be covered by the workers' compensation third party administrator except in the case of an emergency, where life or limb is threatened, the injured worker may seek medical attentions from the nearest medical facility. Further follow up care must be coordinated through one of

the designated medical providers. With a few exceptions, visits to non-designated health provider will not be paid by workers' compensation.

Family and Medical Leave (FML) shall be initiated for the Director, if eligible, as of the first absence following the date of injury. Leave taken due to an on-the-job injury will be applied to the maximum time allowed for FML. FML shall run concurrently with any workers' compensation absence as of the first absence following the date of injury.

Workers' Compensation Leave and the First Three Days (24 cumulative hours or three consecutive shifts) of Missed Time – The first three days (24 cumulative hours of three consecutive shifts) of lost time due to an on-the-job injury, not including the date of injury, the Director shall be allowed to use extended sick leave or compensatory time, if available. The first three days (24 cumulative hours of three consecutive shifts), not including the date of injury, are not subject to wage replacement until fourteen calendar days (80 cumulative hours), or a prorated equivalent amount of time for a part-time employee, are missed from work.

Workers' Compensation Leave; Wage Replacement Provisions and Supplemental Income – When the Director has missed three days (24 cumulative hours of three consecutive shifts) and receives workers' compensation wage replacement benefits, the Director shall have the option of supplementing the workers' compensation wage and replacement by charging one fourth of the total missed time due to an on-the-job injury to extended sick leave, if available. The remaining missed time will be leave without pay.

The Director may only use accrued extended sick leave to supplement workers' compensation wage replacement. An Director is not eligible to use compensatory time off or paid time off to supplement workers' compensation wage replacement.

Continuation of Benefits – The Director on unpaid family or medical leave due to an on-the-job injury will be retained on the Colorado state's group insurance plans so long as the employee pays the employee's portion of the insurance premiums. The Office shall continue to pay the employer's share of the premiums throughout the unpaid family or medical leave when an employee pays the employee's portion of benefits.

Leave Benefits – The Director shall continue to accrue paid time off and extended sick leave while on workers' compensation leave and/or unpaid family or medical leave for an on-the-job injury. No adjustment in computing service dates, seniority,

earning of paid time off, extended sick leave, annual performance increases, or leave accrual rates shall be made as a result of any such leave taken.

Workers' Compensation and "Make Whole" Provision – The Director who is injured on the job and receiving workers' compensation payments shall have the option of using accrued paid time off, or extended sick leave, if leave exceeds 80 cumulative hours in the event year, on a "make whole" basis, meaning accrued leave may be used to make up the difference between the workers' compensation wage loss benefit payments and the employee's gross base pay. The Director who choose to be "made whole" shall first use their accrued paid time off, extended sick leave conditions permitting, and then any other accrued leave available to make up the difference between the workers' compensation wage loss benefit and the employee's gross base pay. Family or medical leave provisions in these rules shall not apply to the Director who chooses to be "made whole" through the use of accrued paid leave until all accrued leave has been exhausted.

Workers' Compensation and Family or Medical Leave – If the Director does not choose to be "made whole" as described above, or has exhausted accrued paid leave, the leave shall be reported as "injury leave" and "leave without pay" concurrently on the monthly leave record. Family or medical leave shall be initiated for the Director, if eligible. Where paid leave is not being used, all injury leave will apply to the maximum length of family or medical leave in an event year. At no time can the Director be on paid time off (including extended sick leave), injury leave, and family or medical leave concurrently. The Director may only be on two of the three leave types at any one time.

4.17. MEDICAL CERTIFICATION

The Chair of the Commission, or as required the full Commission, may at any time request or require medical certification and fitness-to-return certificates as set forth in this section before approval of paid time off or extended sick leave and may investigate an alleged illness or injury any time the improper use or abuse of paid time off or extended sick leave is suspected.

The Chair of the Commission, or as required the full Commission, may deny the use of paid time off or extended sick leave if the Director fails to provide such medical evidence, or if the investigation supports a reasonable belief that the employee is improperly using or abusing paid time off.

The Director must complete forms and provide appropriate documentation, as may be requested, to verify reasons for the leave. Any request for leave based on a

serious health condition, whether it involves the employee or a family member, must be supported by appropriate medical certification.

Failure of the Director to provide notification and appropriate medical certification within 15 days may result in delayed approval. The Chair, or as required the full Commission, reserves the right to request a second medical opinion at the Office's expense, and may request additional certifications at 30-day intervals, if appropriate.
