3. (*CCE & USPS) Service Fees

These are the fees charged when a party requests the E-Filing system to provide Service. Service occurs when the party submits the filing. These fees are non-refundable. If the other party has a CCE account, they are automatically Served, and a \$12 fee is charged. That information is included in the terms and conditions when the E-Filing account is created. If USPS Service is requested, the fees are based on the number of pages.
